Thind,2015-02-07 What does it take to gain entry into the fascinating lucrative world of SAP HCM A successful Interview In fact for contracting jobs all it takes is a half an hour telephone interview before you get your first break Though the interview procedure is more drawn out for permanent job there is normally only ever One technical interview A successful interview can provide you with that break which will be the first step to a career in the SAP World So what are the interviewers looking for For an associate level position less than 2 year s project experience here is what the interviewers typically look for Decent overall knowledge of SAP HCM Deep knowledge in at least one or two area e g Payroll Recruitment etc Ability to work in a team environment As you are a junior you will probably be working as part of a larger team Ability to find relevant technical information With HCM being so wide no single consultant is reasonably expected to know everything However you should have the skills to find out more wherever required The kind of questions asked at the associate level interview are less to do with tables and fields and more to do with your approach to a project issue or a support Issue This is something that can only come with experience or if you receive some coaching from experienced consultants So how would you like some insider knowledge of what kind of questions are asked in an actual SAP HR interview and what kind of response gets you the green light By reading this book Why should you buy this book Current Questions that are being asked in Interviews TODAY Every single question is based on project knowledge and personal experience Divided into functionality areas for easy reading Covers the most important concepts configuration settings Focus on business scenarios Some unique features of this book The Question are ACTUAL questions asked in some of the regular interviews that the likes of Accenture IBM do How do we know Because we do some of these interviews The questions available on google are almost never asked in a Real interview This book contains Questions that are NOT available anywhere else The authors have a combined experience of over 25 years in SAP HR
