(CROWN IMPERIAL LIMOUSINE)**

TIRE COMPARTMENT (CROWN IMPERIAL LIMOUSINE)

To gain access to the tire compartment in the Crown Imperial Limousine, the center section of the rear bumper must be lowered. See illustration. To do this, first remove the four screws (two at each end) with the special wrench provided in the glove compartment and then pull the bumper section back and swing it down. Next, unlock the tire compartment by turning the key one-half turn in a clockwise direction, turn handle counter-clockwise and swing lid down as shown in the illustration. The bumper jack and tools are carried in the tire compartment lid. After locking the tire compartment, swing the center section of the rear bumper up into position and install the four retaining screws.

So that it can be inflated without removal, the spare tire is connected by a small hose to a valve located at the right end of the tire compartment door. Disconnect hose at tire valve before removing spare wheel and tire.
