

Wheels and Tires

- Remove the vehicle jack and fully tighten the lug nuts in the order shown. See **Technical Specifications** (page 427).
- Stow the flat tire. See the **Stowing the Flat or Spare Tire**.
- Stow the vehicle jack and lug wrench. Make sure the jack is securely fastened before you drive. See **Stowing the Vehicle Jack and Tool Bag**.
- Unlock the wheels.

Figure 1

Stowing the Flat or Spare Tire

Note: Failure to follow the spare tire stowage instructions may result in failure of the cable or loss of the spare tire.

1. Lay the tire on the ground with the valve stem facing up.
2. Slide the wheel partially under the vehicle and install the retainer through the wheel center. Pull on the cable to align the components at the end of the cable.
3. Turn the jack handle clockwise until the tire is raised to its stowed position underneath the vehicle. The effort to turn the jack handle increases significantly and the spare tire carrier ratchets or clicks when the tire is raised to the maximum tightness. Tighten to

- the rest of your spare tire when the indicator light comes on. The spare tire is now stowed. Do not attempt to drive the carrier without the spare tire. Do not attempt to drive the carrier without the spare tire.
4. Check that the spare tire is properly stowed and is properly secured. Push or pull the spare tire to ensure it does not move. Lock the retainer. If necessary, tighten the retainer. Properly stow the spare tire in the carrier. In failure of the spare tire, the carrier will be damaged.
5. Repeat the tightening check procedure when servicing the spare tire. Every six months or before any maintenance information, at an time that the spare tire is stowed through service of other components.
6. If removed, install the spare tire into the bumper drive tube with the spare tire lock key and jack handle.

Stowing the Vehicle Jack and Tool Bag

Figure 2

- Adjust the jack up or down by rotating the lead screw located on the side of the jack. The stowage markings should line up with the bottom channel.

Wheels and Tires

- Place the tools inside of the tool bag.

- Install the tool bag to the top of the vehicle jack.

Figure 3

- Install the D-ring straps that secure the tool bag to the vehicle jack.

Figure 4

- Install the fuel funnel.
- Position the jack base to the key hole slots align with the posts in the floor.
- With slight downward pressure, slide the vehicle jack and tool bag inwards toward the driver side of the vehicle until it stops.

Figure 5

- Secure the strap that holds the vehicle jack and tool bag to the vehicle.
