Phil Edmonston, Canada's automotive Dr. Phil, pulls no punches. He says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide, he says Audis are beautiful to behold but hell to own, biodegradable transmissions, rodent snack wiring, and mind-boggling depreciation. Many 2011-12 automobiles have chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that killed its own electric car more than a decade ago. You can save 2,000 by cutting freight fees and administrative charges. Diesel annual urea fill-up scams cost you 300, including an 80 handling charge for 25 worth of urea. Students are then guided to devise business strategies of introducing new products within the scope of regulation known or unknown.
