Paradox Tom Vine, 2023-11-20 History reveals countless attempts by great minds to solve life s paradoxes But what if these attempts miss the point What if paradox is life Contrary to the supposedly sublime linear logic that underpins our prevalent modes of theoretical and empirical enquiry in this fascinating book organizational anthropologist Tom Vine charts the pervasiveness of paradox across the academy from arithmetic to zoology In so doing he reflects on the concept of paradox as a widespread existential pattern a pattern which holds significant metatheoretical and pedagogical potential Paradoxes he argues are not inconveniences or fault lines in our common sense world but are coded into our very existence Paradoxes thus present their own vital logics that shape our lives they thwart moral and ideological uniformity they even out subjective experience between the haves and the have nots and they shed light on the opaque concepts of consciousness and agency This book will appeal to anybody with a curious mind particularly scholars and students with an interest in one or more of the following complexity theory critical pedagogies ethnography nonlinear dynamics organization theory and systems theory

Virgil and Joyce Randall J. Pogorzelski, 2016-04-05 Illuminates how James Joyce s Ulysses was influenced not just by Homer s Odyssey but by Virgil s Aeneid as both authors confronted issues of nationalism colonialism and political violence whether in imperial Rome or revolutionary Ireland

The Routledge Handbook of English for Academic Purposes Ken Hyland, 2016-01-29 The Routledge Handbook of English for Academic Purposes provides an accessible authoritative and comprehensive introduction to English for Academic Purposes EAP covering the main theories concepts contexts and applications of this fast growing area of applied linguistics Forty four chapters are organised into eight sections covering Conceptions of EAP Contexts for EAP EAP

and language skills Research perspectives Pedagogic genres Research genres Pedagogic contexts Managing learning
Authored by specialists from around the world each chapter focuses on a different area of EAP and provides a state of the art review of the key ideas and concepts Illustrative case studies are included wherever possible setting out in an accessible way the pitfalls challenges and opportunities of research or practice in that area Suggestions for further reading are included with each chapter The Routledge Handbook of English for Academic Purposes is an essential reference for advanced undergraduate and postgraduate students of EAP within English Applied Linguistics and TESOL

Imperial Power, Provincial Government, and the Emergence of Roman Asia, 133 BCE-14 CE Bradley Jordan, 2024-01-24 This groundbreaking and detailed study uses the province of Asia as a case study to examine the formation and evolution of Rome's imperial administrative institutions Bradley Jordan examines Asia's rich epigraphy to show how local actors and communities helped to establish and maintain Rome's hegemony in the province

Polis John Ma, 2024-06-04 A definitive new history of the origins evolution and scope of the ancient Greek city state The Greek polis or city state was a resilient and adaptable political institution founded on the principles of citizenship freedom and equality Emerging around 650 BCE and enduring to 350 CE it offered a means for collaboration among fellow city states and social bargaining between a community and its elites but at what cost Polis proposes a panoramic account of the ancient Greek city state its diverse forms and enduring characteristics over the span of a millennium In this landmark book John Ma provides a new history of the polis charting its spread and development into a common denominator for hundreds of communities from the Black Sea to North Africa and from the Near East to Italy He explores its remarkable achievements as a political form offering community autonomy prosperity public goods and spaces of social justice for its members He also reminds us that behind the successes of civic ideology and institutions lie entanglements with domination empire and enslavement Ma's sweeping and multifaceted narrative draws widely on a rich store of historical evidence while weighing in on lively scholarly debates and offering new readings of Aristotle as the great theoretician of the polis A monumental work of scholarship Polis transforms our understanding of antiquity while challenging us to grapple with the moral legacy of an idea whose very success centered on the inclusion of some and the exclusion of others

Modeling and Simulation of Sono-Processes Kaouthar Kerboua, 2024-11-28 Modeling and Simulation of Sono processes provides an overview of the mathematical modeling and numerical simulation as applied to sono process related phenomena from the microscopic to the macroscopic scale collecting information on this topic into one dedicated resource for the first time It covers both fundamental and semi empirical approaches and includes both physical and chemical effects Single acoustic cavitation bubble and bubble population related aspects are modeled mathematically and numerical simulation procedures and examples are presented In addition the procedure involving semi empirical modeling of sonochemical activity and sonochemical reactors is demonstrated and ultrasound assisted processes hybrid processes are demonstrated including several case studies Modeling and Simulation of

Sono processes is written primarily for advanced graduates or early career researchers in physics physical chemistry or mathematics who want to use mathematical modeling and numerical simulation of aspects related to acoustic cavitation bubble bubble population sonochemistry sonochemical reactors and ultrasound assisted processes Uses an evolutive approach to build understanding of scale microscopic to macroscopic of models Clear hypotheses will be advanced with justifications and guidelines to select the appropriate assumptions according to the studied case and the objective of the modeling procedure Resolution methods and simulation conditions are presented in each chapter to offer a reference for reproducible results Special attention is given to semi empirical approaches to handle complex phenomenon accordingly in ultrasound assisted processes offering a reliable method to approach mathematically apparent effects of sonication Metrics are presented for the assessment of the efficiency of sonication alone or in hybrid processes according to the studied case and the intended effect *Psychology: Australia and New Zealand with Online Study Tools 12 Months* Douglas A.
