Elementary Linear Algebra develops and explains in careful detail the computational techniques and fundamental theoretical results central to a first course in linear algebra. This highly acclaimed text focuses on developing the abstract thinking essential for further mathematical study. The authors give early intensive attention to the skills necessary to make students comfortable with mathematical proofs. The text builds a gradual and smooth transition from computational results to general theory of abstract vector spaces. It also provides flexible coverage of practical applications exploring a comprehensive range of topics. Ancillary list Maple Algorithmic testing Maple TA www.maplesoft.com. Includes a wide variety of applications technology tips and exercises organized in chart format for easy reference. More than 310 numbered examples in the text at least one for each new concept or application. Exercise sets ordered by increasing difficulty many with multiple parts for a total of more than 2135 questions. Provides an early introduction to eigenvalues eigenvectors. A Student solutions manual containing fully worked out solutions and instructors manual available. *Elementary Linear Algebra* Stephen Francis Andrilli, Stephen Andrilli, David Hecker, 2003-10-31. The transition to upper level math courses is often difficult because of the shift in emphasis from computation in calculus to abstraction and proof in junior senior courses. This book provides guidance with the reading and writing of short proofs and incorporates a gradual increase in abstraction as the chapters progress. This helps students prepare to meet the challenges of future courses such as abstract algebra and elementary analysis. Clearly explains principles and guides students through the effective transition to higher level math. Includes a wide variety of applications technology tips and exercises including new true false exercises in every section. Provides an early introduction to eigenvalues eigenvectors. Accompanying Instructor's Manual and Student Solutions Manual ISBN 0 12 058622 3.
