Angola Operational Plan Report Fy 2013 Aids Relief:

State, Foreign Operations, and Related Programs Appropriations for 2013 United States. Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2012 **Examining the Belt and Road Initiative (BRI)** Juichi Inada, 2025-03-08 This book endeavors to examine the impact of China's rapid ascendance as a donor on the international development assistance regime over the past two decades. China's rapid economic rise and the success of its economic development have led to a notable trend among many developing countries to view the way of China as a Chinese development model and to imitate it. In addition, China itself has been conscious of the challenge to the development theory and international development assistance regime that has been led mainly by the West and has pushed for policies that differ from those of traditional donors. The Belt and Road Initiative (BRI) which was announced in 2013 is emblematic of these distinctive developments in China. The proliferation of the Chinese development model in the context of these international trends has led some to view it as the global spread of the Beijing Consensus which has replaced the Washington Consensus led by the Bretton Woods Institutions that have exerted significant influence in the past. This book presents case studies of several countries based on the author's field research in Cambodia, Sri Lanka, Myanmar, Angola, Rwanda, and other countries. *Promoting U.S. Investment in Sub-Saharan Africa* R. Hendrickson, 2014-08-19 Addressing an under-studied aspect of U.S. foreign policy towards sub-Saharan Africa, Hendrickson provides a critical historical analysis of institutions designed to promote private investment in the region. She draws attention to the interaction between strategic factors, domestic interests, and the ideas used to achieve consensus on policy. **Angola Operational Plan Report Fy 2013** United States. United States Department of State, 2014-11-12 In 2011, Secretary Clinton called on the world to join in the fight for an AIDS-free generation, and in 2012, the Secretary revealed a PEPFAR President's Emergency Plan for AIDS Relief Blueprint outlining the path to making this a reality. Aligned with the Global Health Initiative (GHI) Strategy, our Partnership Framework (PF), and the Blueprint's policy imperative, Angola's PEPFAR initiatives are based on strategic, scientifically sound investments to scale up core HIV prevention to maximize impact. Based on a capacity building systems strengthening model, PEPFAR Angola is working with partners to effectively mobilize, coordinate, and efficiently use resources to save more lives sooner. The focus will be on key populations, women, and girls to increase gender equality and end stigma and discrimination against people living with HIV. Cross-Cutting Appendix A This will be measured by setting benchmarks that are regularly assessed with the long-term goal of country ownership. The Angola PEPFAR Team will continue to build upon successes of our past, maintaining current programs like supporting the Government of Republic of Angola's GRA INLS INSP CNS decentralization plan with technical assistance in health systems strengthening, implementation of an enhanced Prevention of Mother-to-Child Transmission (PMTCT) services, building GRA human resources by training local surveillance experts to sustain the country's capacity in strategic information, and supporting the military to strengthen its HIV Prevention

Program and promote organizational networking with other military partners at the regional level In addition to continuing programs in fiscal year 2014 Angola PEPFAR will expand PMTCT and HIV testing and counseling in Luanda province and coordinate HIV initiatives across borders to demonstrate collaboration with our neighbors in unity toward an AIDS Free generation The United States Government USG Appendix C utilizes a technical assistance approach in areas identified by the Ministry of Health MoH Secretary Clinton stated in her remarks at the 2012 International AIDS conference that we should continue to be focused on supporting high impact interventions and make tough decisions driven by science This is the fundamental goal of the Angola PEPFAR program

Aid for Trade at a Glance 2017 Promoting Trade, Inclusiveness and Connectivity for Sustainable Development OECD, World Trade Organization, 2017-07-11 This edition focuses on trade connectivity which is critical for inclusiveness and sustainable development Physical connectivity enables the movement of goods and services to local regional and global markets

CQ Weekly Report ,1986 **Crisis Management Beyond the Humanitarian-Development Nexus** Atsushi Hanatani, Oscar A. Gómez, Chigumi Kawaguchi, 2018-09-27 In addressing humanitarian crises the international community has long understood the need to extend beyond providing immediate relief and to engage with long term recovery activities and the prevention of similar crises in the future However this continuum from short term relief to rehabilitation and development has often proved difficult to achieve This book aims to shed light on the continuum of humanitarian crisis management particularly from the viewpoint of major bilateral donors and agencies Focusing on cases of armed conflicts and disasters the authors describe the evolution of approaches and lessons learnt in practice when moving from emergency relief to recovery and prevention of future crises Drawing on an extensive research project conducted by the Japan International Cooperation Agency Research Institute this book compares how a range of international organizations bilateral cooperation agencies NGOs and research institutes have approached the continuum in international humanitarian crisis management The book draws on six humanitarian crises case studies each resulting from armed conflict or natural disasters Timor Leste South Sudan the Syrian crisis Hurricane Mitch in Honduras the Indian Ocean earthquake and tsunami in Indonesia and Typhoon Yolanda The book concludes by proposing a common conceptual framework designed to appeal to different stakeholders involved in crisis management Following on from the World Humanitarian Summit where a new way of working on the humanitarian development nexus was highlighted as one of five major priority trends this book is a timely contribution to the debate which should interest researchers of humanitarian studies conflict and peace studies and disaster risk management
