Annales De Geographie:

Annales de geographie, 1957 **Geographers - Biobibliographical Studies** Hayden Lorimer, Charles W. J. Withers, 2012-09-27 An annual collection of studies of individuals who have made major contributions to the development of geography and geographical thought **Geographers** Hayden Lorimer, Charles W. J. Withers, 2013-09-12 This volume of *Geographers Biobibliographical Studies* brings together essays on four Frenchmen a Czech and three Englishmen The lives of our subjects extend from the late Enlightenment and the era of polite science in Regency Britain to the first decade of the 21st century These geographers and their studies are linked not only in their regional expertise from Brazil French Indo China to Scandinavia and South Africa but also by their commitment to the development of geography as a science and as a discipline Here in different settings and at different times we can see how the lived experience of geographers lives shaped the contours of the subject Geographers Charles W. J. Withers, Hayden Lorimer, 2015-12-14 The twenty seventh volume of *Geographers Biobibliographical Studies* includes essays covering the geographical work and lasting significance of eight individuals between the late sixteenth century and the early twentieth century The essays cover early modern geography cartography and astronomy geography s connections with late Renaissance humanism and religious politics armchair geography and textual enquiry in African geography medical mapping and Siberian travel human ecology in the Vidalian tradition radical political geography in twentieth century USA American agricultural geography and cultural historical geography in Japan and in India In these essays GBS continues to provide detailed insight into the richness of geography s intellectual traditions and the diversity of geographers lives *Geography: Discipline, Profession and Subject since 1870* Gary S. Dunbar, 2013-03-14 Gary S Dunbar Pro fesh yon al i zay shun pro fesh yon al i ZAY shun! I do not think I like that word I am quite certain I do not like that word! said A F Martin of Oxford University in 1980 when I mentioned to him that I was making a study of the professionalization of geography in Europe and North America from about 1870 to 1930 I should not have been surprised by his reply because Mr Martin a highly regarded lecturer tutor and university man was in some ways a typical example of his generation of British geographers in that he did not have an advanced degree and his publication record was meager Except for a single remarkable essay Martin 1951 he was not well known in the field of geography at least not outside the United Kingdom Was he then a professional geographer Yes indeed because he was a full time scholar in a distinguished university even though he lacked the sort of credentials that have been demanded of subsequent generations of scholars at Oxford and elsewhere I certainly do not mean to denigrate Martin or his ilk I am simply using this anecdote to launch a book on the emergence of modern geography *Geography and National Identity* David Hooson, 1994-10-20 This volume of especially commissioned essays explores the geography of and the role of geography in national and proto national identity Place and national identity are bound together Attachment to the one is almost always inseparable from the sense of the other Yet as this volume shows the articulated self conscious linking of place

and identity is by and large a modern phenomenon that took root in nineteenth century Europe The formation of supranational states and the much vaunted globalization of culture led many to believe there would be a progressive dilution of national identities and a growing agglomeration of places and nations into larger state units Precisely the reverse has taken place This book explores the connections between identity and homeland showing how a place may be perceived as archetypal endowed with love and celebrated in music and poetry yet be a pretext for violence and war It examines the evolution of ideas about identity and their manifestations in a wide variety of settings from the former Soviet Union to the island states of the South Pacific
