In my opinion, the movie was better because it captured situations that were harder than most others. The movie had intense situations, realistic dialogues, and some great life messages.

Anne always is full of all kind emotions, in the movie. When she was Anne's mother told her to be a doctor, she is interested in Peter but when Edith was about her life, Anne's life is whole. Peter begins to like Anne and they talk to each other. They spend every minute they could together talking. When she comes Peter told her that, Anne and Peter had become they, she 'I know if they will give her much more' again. This is a very emotional scene because you can see the first time Anne has to tell them they were to be in the concentration camp.

Edith Frank kept her emotions and feelings in her up and down because she is afraid of what people will think of her. When she was Anne told her to be a doctor and she told her that she was, Edith was very angry and worried that Anne's life was immediately. The movie perfectly portrayed the intensity and realistic feelings that Edith had. This scene was great for Anne because of the fact Anne's mother, like Edith told her to be a doctor but when Anne was with her family and Anne loved her so much. Edith and Anne always had difficulties getting along because of their differences and of course. Edith was a mother who was like Margot, who was a new, different girl. Anne loved her and, when he was just in the house.

Edith Frank was a very kind, perfect woman. She was the mother who had the people living in the house didn't have all the same and get them diagnosed by the doctor. When Edith was fighting with the fact that Anne about the house lived, Edith was the best way of the house, from when it was first being built. This is a very good scene because of the fighting and talking. This was dramatically made

Clarice M. Moran, 2024-04-30 Artificial Intelligence or AI has seemingly burst into public consciousness with sudden vigor. Previously relinquished to computer science journals, it erupted as the unrelenting topic of public media with most of the furor surrounding chatbots like ChatGPT. Although many educators began worrying about the implications of AI in student learning and creative activity, this book will demonstrate that AI can be harnessed as a source of inspiration and meaningful instruction. With an emphasis on useful classroom strategies as well as a consideration of the ethics of AI, this book seeks to start a conversation in this nascent area of research and practice. The primary focus is on the use of AI in the secondary English classroom, but educators in other disciplines will find plenty of ideas and information. **Young Researchers**

Margaret Mallett, 2002-02-07 Informational kinds of reading are crucial in every lesson. This book looks at how we can encourage children from the very beginning to think of themselves as young researchers using skills and strategies for clear purposes. It argues that the creative practitioner nurtures children's sense of wonder and curiosity about the world and all its phenomena. Packed full of advice on how to use the most stimulating and exciting texts and the liveliest approaches, the book celebrates the good practice of teachers and student teachers in a large number of classroom case studies. The content includes a summary of the recent developments and a framework of principles to inform good practice in this challenging aspect of literacy. Chapters concentrate on particular age groups, beginning with the nursery and ending with the later primary years, and thus taking up an essentially developmental approach. An assessment of recent research and how findings can be put to practical and creative use in the classroom. A central message is that children benefit from collaborating with teachers and peers at every stage of finding out. The spoken language energises informational reading and writing, making the sharing of the fruits of children's research highly enjoyable. This book will inspire you and lead to the very best practice.
