Quinlan, 2012-08-15 Introduces the Mustang discusses its evolution and racing history and provides a brief overview of the Ford Motor Company **Shelby Mustang** Colin Comer, 2019-10-08 Shelby Mustang

details the entire story of these fantastic cars from the early prototypes built in Shelby's Los Angeles shop to today's Ford engineered high tech performers. Written by one of the world's foremost authorities on Shelby automobiles, critically acclaimed author Colin Comer, and with a foreword by Lee Iacocca, the American automobile executive credited with the successful development of the Mustang, this is the definitive account of the Shelby. When Ford wanted to toughen up its super successful new Mustang, they approached Carroll Shelby to give it the performance image it so sorely lacked. Beginning with a 1965 K Code 289 cubic inch powered Mustang fastback, Shelby applied the same formula that had made his Cobra sports cars such devastating performers, both on and off the track: more horsepower, less weight, balanced handling. The GT350 quickly established itself as a bonafide force in SCCA B Production racing, twisting back roads and boulevards alike, setting the course for future Shelby Mustangs like the big block GT500. Though those original Shelby Mustangs were done by 1970, Ford dusted off its Shelby relationship in 2006 and has been producing high performance Ford Mustang Shelys ever since. This is a must have read for any fan of American performance cars, whether you're a muscle era original or a 21st century stormer.

Carroll Shelby Rinsey Mills, 2014-03-15. The definitive record of the twentieth century's preeminent car builder and racer is now available in an updated paperback edition. It was motoring author Rinsey Mills' passion for AC cars and motorsports history that led to his first meeting with Carroll Shelby. His suggestion that they should collaborate in order to create an accurate record of Shelby's life and achievements at first was rebuffed but later taken up with enthusiasm. This authorized biography is the result. Carroll Shelby: The Authorized Biography was a long time in the making as Mills left no stone unturned in his quest to produce the complete study of Shelby's remarkable life. He carried out extensive research and conducted numerous interviews, fully capturing the narrative of Carroll Shelby within and outside of the automotive racing world: his childhood in Texas, wartime tenure with the Army Air Force, and postwar entrepreneurship; his earliest race wins in 1952 and his legendary 1959 victory at the 24 Hours of Le Mans; his monumental release of the first Cobra and the formation of Shelby American in 1962; his historical partnership with Ford that would last for decades all the way through to Shelby's personal hobbies, travels, and present day legacy. Fascinating photographs from Shelby's personal collection complete a book whose original hardcover edition was published mere weeks before his passing, making *Carroll Shelby: The Authorized Biography* a magnificent and lasting tribute to one of the greatest automotive figures of the twentieth century.

Mustang by Design James Dinsmore, James Halderman, 2018-09-14. p. 1. margin: 0px 0px 0px 0px; font: 12px Arial. Without question, the 1964 1/2 Mustang is one of the most important and influential cars in automotive history. When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford

facilities to get the real unvarnished story Gale Halderman offers a unique behind the scenes perspective and firsthand account of the inception design development and production of the original Mustang With stinging losses from the Edsel fresh in minds at Ford the Mustang project was an uphill battle from day one Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile but with the help of Hal Sperlich s detailed market research the project received the green light Henry Ford II made it clear that jobs were on the line including Iacocca s if it failed The process of taking a car from sketch to clay model to prototype to preproduction and finally finished model is retraced in insightful detail During the process many fascinating experimental cars such as the Mustang I two seater Mustang II prototype Mustang Allegro and Shorty were built But eventually the Mustang based on the existing Ford Falcon received the nod for final production In a gala event it was unveiled at the 1964 World s Fair in New York The Mustang received public accolades and critical acclaim and soon it became a runaway hit After the initial success Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes The classic Mustang muscle cars to follow including the GT Mach 1 and others are profiled as well The Mustang changed automotive history and ushered in the pony car era as a nimble powerful and elegantly styled sports coupe But it could so easily have stumbled and wound up on the scrap pile of failed new projects This is the remarkable and dramatic story of how the Mustang came to life the demanding design and development process and ultimately the triumph of the iconic American car
