Popular Representations of Development David Lewis, Dennis Rodgers, Michael Woolcock, 2014-01-23 Although the academic study of development is well established as is also its policy implementation less considered are the broader more popular understandings of development that often shape agendas and priorities particularly in representative democracies Through its accessible and provocative chapters *Popular Representations of Development* introduces the idea that while the issue of development defined broadly as problems of poverty and social deprivation and the various agencies and processes seeking to address these is normally one that is discussed by social scientists and policy makers it also has a wider popular dimension Development is something that can be understood through studying literature films and other non conventional forms of representation It is also a public issue one that has historically been associated with musical movements such as Live Aid and increasingly features in newer media such as blogs and social networking The book connects the effort to build a more holistic understanding of development issues with an exploration of the diverse public sphere in which popular engagement with development takes place This book gives students of development studies media studies and geography as well as students in the humanities engaging with global development issues a variety of perspectives from different disciplines to open up this new field for discussion

Irish and African American Cinema Maria Pramaggiore, 2012-02-01 Focusing on two film traditions not normally studied together Maria Pramaggiore examines more than two dozen Irish and African American films including *Do the Right Thing* *In the Name of the Father* *The Crying Game* *Boyz n the Hood* *The Snapper* and *He Got Game* arguing that these films foreground practices of character identification that complicate essentialist notions of national and racial identity The porous sense of self associated with moments of identification in these films offers a cinematic counterpart to W E B Du Bois's potent concept of double consciousness an epistemological standpoint derived from experiences of colonization racialization and cultural disruption Characters in these films Pramaggiore suggests reject the national paradigm of insider and outsider in favor of diasporic both and notions of self thereby endorsing the postmodern concept of identity as performance

Positive Psychology in Higher Education Acacia Parks, 2014-01-21 Positive psychology the scientific study of happiness is a rapidly burgeoning field and in no area more so than education More departments than ever are offering courses in positive

psychology and demand for these courses is consistently high Graduate programs offering concentrations in positive psychology have appeared at both masters and doctoral level Educational institutions have expressed interest in using principles of positive psychology to inform institutional structure faculty development and pedagogy Positive psychology has been taught and applied in higher education for almost as long as it has existed as a field but there is little in the way of published literature that brings all of these developments together The chapters in this volume represent the use of positive psychology at all levels of higher education from institutional practices and curricular development to pedagogy and the teaching of positive psychology content itself This book provides an in depth look at this exciting area of applied positive psychology which will be relevant to educators and administrators alike This book is based on a special issue of The Journal of Positive Psychology
