our vehicle for escape from the mundane here and now It transports us to distant lands of magic and make believe It provides us with diversions during boring meetings or long bus rides It enables creation of new things that the world has never seen Yet the focus on imagination as a means of escape from the real world minimizes the fact that imagination seems also to furnish us with knowledge about it Imagination seems an essential component in our endeavor to learn about the world in which we live whether we re planning for the future aiming to understand other people or figuring out whether two puzzle pieces fit together But how can the same mental power that allows us to escape the world as it currently is also inform us about the world as it currently is The ten original essays in *Knowledge Through Imagination* along with a substantial introduction by the editors grapple with this neglected question in doing so they present a diverse array of positions ranging from cautious optimism to deep seated pessimism Many of the essays proceed by considering specific domains of inquiry where imagination is often employed from the navigation of our immediate environment to the prediction of our own and other peoples behavior to the investigation of ethical truth Other essays assess the prospects for knowledge through imagination from a more general perspective looking at issues of cognitive architecture and basic rationality Blending perspectives from philosophy of mind cognitive science epistemology aesthetics and ethics *Knowledge Through Imagination* sheds new light on the epistemic role of imagination *Foreign Policy Bulletin* ,1959 *Hearings Relating to Madison Guaranty S&L and the Whitewater Development Corporation, Washington, DC Phase: Hearings relating to Madison Guaranty S&L and the Whitewater Development Corporation, Washington, DC phase* United States.
