Animal Care Control Advisory Board:

Animal Control Management Stephen Aronson, 2010 This book is the first of its kind to discuss in detail the actual management of local animal control programs as opposed to the care of the animals It covers financial personnel legal health and safety issues that animal control directors and management staff need to know in providing direction and oversight of animal control programs Chapters examine selected topics in which the author assesses strengths and weaknesses and offers new insights and strategies for more effective management For example the two chapters on contracting discuss the steps in the process strategies and suggested provisions in the written agreement to make the program more effective The animal law chapters explain the basis for the laws and highlight those provisions that if enacted into law can strengthen enforcement options In addition the author discusses and assesses interacting with the public and the media liability issues wildlife problems and the politics of animal control **Federal Register** ,2008 **Assembly Bill** California. Tim Lang and Vandana Shiva are brought together with ethicists religious scholars international industry and regulators for the first time to debate these critical issues and tackle the profound implications of animal sentience The first sections discuss scientific and ethical perspectives on the consciousness emotions and mental abilities of animals Later sections address how human activities such as science law religion farming food production trade development and education respect or ignore animals sentience and welfare and review the options for changes in our policies our practices and our thinking The result is nothing less than a stark and necessary look into the heart of humanity and the ethics that govern our animal powered society
