Pink Floyd on track Richard Butterworth, 2023-09-27 Pink Floyd are one of the most innovative and enduringly successful bands in history 1973's Dark Side of the Moon though far from the first concept album established a new model for quasi symphonic long form investigations into the human condition It is a record of thoughtfully poignant lyrics and some of the most powerful genre defining rock music ever made Roger Waters Rick Wright Nick Mason and the tragically brilliant Syd Barrett fused English whimsy with electrifying voyages through inner and outer space Their underground gigs are the stuff of psychedelic legend but between 1968 and 1971 with Barrett replaced by David Gilmour their sonic inquiries were never braver Some were delivered instantly while others were revealed slowly but all played crucial parts in rock's development During the 1970s the music matured as the messages darkened While Floyd continued to prove that emotional weight can be forged from deceptively modest arrangements the band's live spectacles reached a pitch of technical complexity and extravagance none has matched With insightful analysis and witty objectivity Richard Butterworth appraises afresh Pink Floyd's official recorded canon from Arnold Layne to The Endless River and beyond to 2022 and the first all new Floyd music for 28 years Richard Butterworth's grown up career began in advertising first as a paste up artist and later as a graphic designer Settling on copywriting for years he reaped the pleasures pains and penury of freelancing As a lifelong believer in the healing and redemptive power of music however he knew that humankind's highest art form would eventually saddle up and ride him into the sunset Today Richard lives in Cornwall UK with his partner Sue two golden retrievers a tenor saxophone and a justifiably ancient laptop computer on which he still writes about the music he loved before he was a grown up

hegemonic global ethnic identity
