Improving Instruction in Rational Numbers and Proportionality Margaret Schwan Smith,Edward A. Silver,Mary
Kay Stein,2005-01-01 Helping students develop an understanding of important mathematical ideas is a persistent challenge
for teachers In this book one of a three volume set well known mathematics educators Margaret Smith Edward A Silver and
Mary Kay Stein provide teachers of mathematics the support they need to improve their instruction They focus on ways to
engage upper elementary middle school and high school students in thinking reasoning and problem solving to build their
mathematics understanding and proficiency The content focus of Volume One is rational numbers and proportionality Using
materials that were developed under the NSF funded COMET Cases of Mathematics to Enhance Teaching program each
volume in the set features cases from urban middle school classrooms with ethnically racially and linguistically diverse

student populations Each case illustrates an instructional episode in the classroom of a teacher who is implementing standards based instruction the teachers perspective including their thoughts and actions as they interact with students and with key aspects of mathematical content cognitively challenging mathematics activities that are built around samples of authentic classroom practice and facilitation chapters to help professional developers teach the cases including specific guidelines for facilitating discussions and suggestions for connecting the ideas presented in the cases to a teacher s own practice As a complete set this resource provides a basis on which to build a comprehensive professional development program to improve mathematics instruction and student learning
