University US and Princeton University US A distinctive feature of this book is the application of microeconomics to public policy As to be expected given the international reputation of the authors there is a thorough treatment of global environmental policies including the Stern Report and a very useful chapter on issues of defence conflict and terrorism What this text offers and most competing books do not is the breadth of coverage In this revised edition we have integration into the topics of advances in behavioural evolutionary and Austrian economics The relevance to business management and government policy of the material presented makes the subject come alive in application a refreshing change from the curve shifting that dominates traditional microeconomic texts which turns off so many of our students and prevents them from seeing the crucial importance of economics to almost every aspect of our well being John Lodewijks University of Western Sydney Australia This thoroughly accessible textbook shows students how microeconomic theory can be used and applied to major issues of public policy In this way it will improve their understanding of both microeconomic theory and policy and also develop their ability to critically assess them Clem Tisdell and Keith Hartley have expanded upon their previous successful work on microeconomics As a result this new book is considerably updated with substantial chapter revisions as well as new chapters dealing with business management ownership environmental issues public choice defence conflict and terrorism Promoting a thorough understanding of this complex yet fundamental topic Microeconomic Policy A New Perspective will undoubtedly prove an invaluable textbook for all students academics and researchers of economics and public policy
