Sheather, 2011-09-15 An introduction to the theory and methods of robust statistics providing students with practical methods for carrying out robust procedures in a variety of statistical contexts and explaining the advantages of these procedures In addition the text develops techniques and concepts likely to be useful in the future analysis of new statistical models and procedures Emphasizing the concepts of breakdown point and influence function of an estimator it demonstrates the technique of expressing an estimator as a descriptive measure from which its influence function can be derived and then used to explore the efficiency and robustness properties of the estimator Mathematical techniques are complemented by computational algorithms and Minitab macros for finding bootstrap and influence function estimates of standard errors of the estimators robust confidence intervals robust regression estimates and their standard errors Includes examples and problems **Algebraic Methodology and Software Technology (AMAST'93)** Maurice Nivat, Charles Ratnayake, Teodor Rus, Giuseppe Scollo, 2012-12-06 The goal of the AMAST conferences is to foster algebraic methodology as a foundation for software technology and to show that this can lead to practical mathematical alternatives to the ad hoc approaches commonly used in software engineering and development The first two AMAST conferences held in May 1989 and May 1991 at the University of Iowa were well received and encouraged the regular organization of further AMAST conferences on a biennial schedule The third Conference on Algebraic Methodology and Software Technology was held in the campus of the University of Twente The Netherlands during the first week of Summer 1993 Nearly a hundred people from all continents attended the conference The largest interest received by the AMAST conference among the professionals extended to include the administration organizations as well AMAST 93 was opened by the Rector of the University of Twente followed by the Local Chairman Their opening addresses open this proceedings too The proceedings contains 8 invited papers and 32 selected communications The selection was very strict for 121 submissions were received *Resources in Education* , 1994-05 **Groups and Computation II** Larry Finkelstein, William M.
