Strategy for Sustainable Competitive Advantage Ian Chaston, 2012 Due to the adverse outcomes of the recent global recession and the public deficit crisis in the USA and Europe Western companies can expect flattening or declining sales in their domestic markets They will also face growing competition as Chinese firms seek to block the activities of foreign companies in their domestic market and expand their own operations in overseas markets Survival and growth for Western companies is unlikely to come from sustaining current business practices based upon utilization of conventional approaches to strategic management success will depend on exploiting new knowledge to stay ahead of competition This book examines the strategic issues associated with the entrepreneurial utilization of new knowledge to create innovative products and services accompanied by the development of leading edge highly productive internal organizational processes Through the use of appropriate theories and illustrative case examples the text is designed to assist managers in Western organizations and business school students understand how to counter the increasing threats that are posed by the globalization of companies from emerging countries such as the BRIC nations Green Technologies: Concepts, Methodologies, Tools and Applications Management Association, Information Resources, 2011-03-31 Green Technologies Concepts Methodologies Tools and Applications assembles the most up to date collection of research results and recent discoveries in environmental and green technology This comprehensive anthology covers a wide range of topics i *Corporate Real Estate Asset Management* Barry Haynes, Nick Nunnington, Timothy Eccles, 2017-04-28 The second edition of Corporate Real Estate Asset Management is fully up to date with the latest thought and practice on successful and efficient use of corporate office space Written from an occupier's perspective the book presents a ten point CREAM model that offers advice on issues such as sustainability workplace productivity real estate performance measurement change management and customer focus In addition new case studies provide real life examples of how corporations in the UK USA Hong Kong and Abu Dhabi actively manage their corporate real estate The book is aimed at advanced undergraduate and graduate students on corporate real estate facilities management and real estate courses and international MBA programmes **Future Flooding and Coastal Erosion Risks** Colin R Thorne, Edward Evans, E. Penning-Rowsell, 2007-01-10 Over 200 billion worth of assets are at risk around British rivers and coasts and those risks are likely to increase over the next 100 years due to changes in climate and in society Sir David King Government Chief Scientific Adviser This book presents a comprehensive insight into the flooding system spanning multiple disciplines across different sectors of the flood and flood management professions It forecasts the manner in which flooding and coastal erosion risks may increase during the 21st century due to climate change **Facilities Management and Corporate Real Estate Management as Value Drivers** Per Anker Jensen, Theo van der Voordt, 2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and relatively new management disciplines with developing international professions and increasing academic attention Both

disciplines have from the outset a strong focus on controlling and reducing cost for real estate facilities and related services. In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation. This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM. It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values. The findings are connected to a new Value Adding Management model. The book is research based with a focus on guidance to practice. It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience. It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice. This is a much needed resource for practitioners, researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level.

Aligning Strategy and Sales Frank V. Cespedes, 2014. Most firms face a wide gap between their strategic goals and their sales and other go to market efforts. Aligning these activities is or should be an important component of competitive advantage for entrepreneurs and established companies. Yet for most it isn't. This book is about aligning strategy and go to market efforts. It starts by explaining why many sales problems in companies are really strategic alignment issues. It helps managers understand and diagnose both the overt and hidden costs of not aligning strategic goals with sales initiatives and why getting better at selling typically requires more than a motivational speech, sales force reorganization, new incentives or a good training seminar. It outlines a process for articulating strategy in ways that people in the field can understand and in ways that help strategy formulators understand the required sales tasks inherent in strategic plans for the enterprise. Given a coherent strategy, the book provides a framework for analyzing and managing the core levers available to firms when they seek to align selling behaviors with sales tasks and examines each lever. Readers will learn how to synchronize strategy and sales activities across the organization and get value from improving their firm's performance in the following areas: How to move from a strategic vision to an integrated selling plan; How to build a sales organization to match strategy; How to create and maintain the optimal infrastructure and processes.
