music film philosophy theatre history sports and exile      *German Expressionism* Museum of Modern Art (New York, N.Y.), Starr Figura, Peter Jelavich, 2011 Catalog of an exhibition held at the Museum of Modern Art New York Mar 27 July 11 2011      **Modern Painting, Drawing & Sculpture** Louise Pulitzer, 1958      **Visual proficiency - A perspective on art education** Kunibert Bering, Rolf Niehoff, 2015-12-18 Every day over a million images are uploaded to flickr This is a striking example of the so called flood of images that emerged with the beginning of the digital age A generation of adolescents has already been socialised with this flood of images and deals with it on a daily basis both in their networks and elsewhere Art education thus faces significant challenges art is the only school subject that deals with the problems inherent in images as images making them the focus of pedagogic activity This volume presents both the foundations for engaging with the phenomenon of the image in a competent and historically informed manner as well as the perspectives for art education that arise from these foundations It is based upon the conviction that providing orientation in a world defined by images does not mean following solely a technocratic functionalist or even neoliberal concept of education Quite the contrary providing an orientation for how to deal with images in a world that is dominated by them is a crucial part of the holistic development of young people s personalities The volume s main focus lies upon the new functions taken on both by the image and by art more generally It takes into account aspects of globalisation and participation and also includes more unusual views often from a cross media perspective of art and its historical repertory which even current image creation is unable to dispense with The volume also deals extensively with architecture and the images it conveys
