Amc 290 Manual:

The Complete Book of AMC Cars Patrick R. Foster, Tom Glatch, 2024-10-29 Get an inside look at the American automaker that rose from the decline of a once thriving independent auto industry to put up a valiant fight against Detroit's Big Three automakers. In *The Complete Book of AMC Cars* American Motors Corporation 1954-1988 authors Patrick Foster and Tom Glatch provide a thorough and fully illustrated review of all the production cars offered by AMC from its founding in 1954 to its demise in 1988 including Rambler Metropolitan Ambassador Rebel Marlin Gremlin Hornet Matador AMX Javelin Pacer Eagle Jeep. Born from the ashes of Hudson and Nash, AMC represented a last attempt at survival for an independent automobile company. Thanks to the capable leadership of CEO George Romney, the company not only survived but thrived riding on the success of the firm's small economical cars like the Rambler. As the market began to shift more toward performance and luxury cars in the 1960s, AMC found itself challenged to compete with the output from Ford, Chrysler, and General Motors. The fuel crisis of the 1970s positioned AMC's smaller cars to refill corporate coffers. The firm's purchase of the Jeep brand also generated profits but ultimately it was too little too late. Even a partnership with French automaker Renault and the introduction of the all-wheel drive Eagle couldn't save AMC. In 1987, Chrysler Corporation purchased AMC and the story of the last independent automaker came to an end. Foster and Glatch's engaging book covers all of the AMC models as well as racing exploits from its inception to its ultimate demise. Whether you are an AMC enthusiast or are simply intrigued by cars and the stories behind them, this volume is a must-have for your bookshelf. [American Cars, 1966-1972](#) J. "Kelly" Flory, Jr., 2023-11-27 The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the need for speed characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American-made cars of model years 1966-1972. Organized by year and summarizing the market annually, it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options, and their prices, curb weight, and dimensions, interior and exterior paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. [The Cars of American Motors](#) Marc Cranswick, 2012-01-06 Though American Motors never approached the size of Detroit's Big Three, it produced a long series of successful cars that were distinctive, often innovative, and in many cases influential. This history examines AMC's cars from the company's formation in 1954 through its absorption by Chrysler in 1987. The Gremlin, Pacer, and Eagle vehicles are examined in detail, as are the AMC custom cars of George Barris and Carl Green. The text details AMC's 1980s involvement with the French firm Renault and the design legacy of that joint venture, which includes the Hummer. The evolution of Jeep is covered from the 1960s through the 2000s. Features include some 225 photographs, a listing of AMC Rambler clubs,

organizations and business entities with contact details tables of detailed specifications and performance data data on technical devices trim packages and all model variations a comprehensive account of AMC Rambler appearances in film television and cartoons American Cars, 1960-1972 J.
