American Death Trip:

American death trip James Ellroy, 2022 *Embattled America* Jason Bivins, 2022 Embattled America is a reinterpretation of conservative evangelical persecution claims The centrality of such claims to American life is widely known This book however argues against standard approaches to them It interprets a range of controversial subjects and persons surrounding embattled religion from the Obama to Trump era Glenn Beck Sarah Palin the Tea Party Wallbuilders anti sharia legislation and birthers The lesson of each episode is linked not to any iteration of religion but to a democratic fundament that is obscured in the obsession with controversial religion *Fear and Loathing in America* Hunter S.

Thompson, 2011-09-27 From the king of Gonzo journalism and bestselling author who brought you *Fear and Loathing in Las Vegas* comes another astonishing volume of letters by Hunter S Thompson featuring a new introduction from award winning author and staff writer at The New Yorker Jon Lee Anderson Brazen incisive and outrageous as ever this second volume of Thompson's private correspondence is the highly anticipated follow up to *The Proud Highway* When that first book of letters appeared in 1997 Time pronounced it deliriously entertaining Rolling Stone called it brilliant beyond description and The New York Times celebrated its wicked humor and bracing political conviction Spanning the years between 1968 and 1976 these never before published letters show Thompson building his legend running for sheriff in Aspen Colorado creating the seminal road book *Fear and Loathing in Las Vegas* twisting political reporting to new heights for Rolling Stone and making sense of it all in the landmark *Fear and Loathing on the Campaign Trail '72* To read Thompson's dispatches from these years addressed to the author's friends enemies editors and creditors and such notables as Jimmy Carter Tom Wolfe and Kurt Vonnegut is to read a raw revolutionary eyewitness account of one of the most exciting and pivotal eras in American history

The Great Beyond Philip D. Beidler, 2022-05-03 Many of the touchstones of modernism reflect on death and devastation In Philip D Beidler's exploration of the modernist canon he illuminates how these singular voices looked extinction in the eye and tried to reckon with our finitude and their own *The Great Beyond* Art in the Age of Annihilation catalogs through lively prose an eclectic selection of artists writers and thinkers In 16 essays Beidler takes nuanced and surprising approaches to well studied figures the haunting sculpture by Saint Gaudens commissioned by Henry Adams for his late wife Luchino Visconti's adaptation of Mann's *Death in Venice* and the author's own long fascination with Beckett's *Waiting for Godot* The threads and recurring motifs that emerge through Beidler's analysis bridge the different media genres and timeframes of the works under consideration Protomodernists Crane and Twain connect with near contemporary voices like Sebald and Morrison Robert MacFarlane's 21st century nonfiction about what lies underneath the earth echoes the Furerbunker and the poetry of Gertrud Kolmar In tracing how his subjects confronted nothingness be it personal or global Beidler draws a map of how we see the end of the road *Existential America* George Cotkin, 2003 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville

to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus

Rolando Hinojosa and the American Dream Joyce Glover Lee, 1997 Rolando Hinojosa is a Texas writer with his sense of place centered in the Texas Valley a world in itself and a place recognizable as a discrete community But Hinojosa's work transcends the regional transcends the Valley transcends Texas while it remains rooted in all three Hinojosa is treated here from the perspective of his place in the mainstream of American literature and with his attempts to write works that speak to a large and more diverse audience rather than from the perspective of his place within the world of Texas Mexican literature Joyce Lee does not neglect the regional aspects of Hinojosa's works but puts them into the context of what they say about the vitality of American culture at large and about the Mexican culture's variations of the American Dream Covers Hinojosa's full length books Dear Rafe Klail City The Useless Servants The Valley Partners in Crime and Rites and Witnesses as well as his essays and articles

Criticism in the Borderlands Héctor Calderón, José David Saldívar, 1991-05-30 This pathbreaking anthology of Chicano literary criticism with essays on a remarkable range of texts both old and new draws on diverse perspectives in contemporary literary and cultural studies from ethnographic to postmodernist from Marxist to feminist from cultural materialist to new historicist The editors have organized essays around four broad themes the situation of Chicano literary studies within American literary history and debates about the canon representations of the Chicana/o subject genre ideology and history and the aesthetics of Chicano literature The volume as a whole aims at generating new ways of understanding what counts as culture and theory and who counts as a theorist A selected and annotated bibliography of contemporary Chicano literary criticism is also included By recovering neglected authors and texts and introducing readers to an emergent Chicano canon by introducing new perspectives on American literary history ethnicity gender culture and the literary process itself Criticism in the Borderlands is an agenda setting collection that moves beyond previous scholarship to open up the field of Chicano literary studies and to define anew what is American literature Contributors Norma Alarcón Héctor Calderón Angie Chabram Barbara Harlow Rolando Hinojosa Luis Leal José E. Border Theory Scott Michaelsen, David E. Johnson, 1997 Border Theory was first published in 1997 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Challenging the prevailing assumption that border studies occurs only in the borderlands where Mexico and the United States meet the authors gathered in this volume examine the multiple borders that define the United States and the Americas including the Mason Dixon line the U.S. Canadian border the shifting boundaries of urban diasporas and the colonization and

confinement of American Indians The texts assembled here examine the way border studies beckons us to rethink all objects of study and intellectual disciplines as versions of a border problematic These writers drawn from anthropology history and language studies critique the terrain limits and possibilities of border theory They examine among other topics the soft or friendly borders produced by ethnic studies antiassimilationist or difference multiculturalisms liberal anthropologies and benevolent nationalisms Referring to a range of theory anthropological sociological feminist Marxist European postmodernist and poststructuralist postcolonial and ethnohistorical the authors trace the genealogical and logical links between these discourses and border studies A timely critique of a field just now revealing its explosive potential this volume maps the intellectual topography of border theory and challenges the epistemological and political foundations of border studies Contributors are Russ Castronovo Elaine K Chang Louis Kaplan Alejandro Lugo Benjamin Alire S enz and Patricia Seed Scott Michaelsen is assistant professor of English at Michigan State University David E Johnson is lecturer in the Department of Modern Languages at the State University of New York at Buffalo

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain

countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes
