producer of iron ore in the United States by purchasing the mining interests of its bankrupt partners during the implosion of the American steel industry in the late twentieth and early twenty first centuries Reynolds and Dawson detail Cleveland Cliffs evolving efforts to deal with labor from its early mostly immigrant workforce to its ambitious program of welfare capitalism in the early twentieth century to its struggles with organized labor after World War II Iron Will is a thorough well organized history based on extensive archival research and interviews with company personnel This story will appeal to scholars interested in industrial or mining history business historians and those interested in Great Lakes and Michigan history
