

AMELIA EARHART

Amelia Earhart was born in 1897 in Kansas, USA. When she was only ten years old, she saw her first plane, and wasn't impressed at all. However, when she started to read newspapers, she became increasingly interested in articles and reports about women who succeeded in professions usually attributed to men, such as Medicine, Engineering, Law and Management. During the First World War she started to work as a nurse in a military hospital, and some years later she decided to start studying Medicine at university.

One day, in 1920, she went with her father to an aviation fair for the first time. She had a 10-minute flight in a plane, and Amelia's life changed. Amelia realized that her destiny was to fly as soon as the plane left the ground, so she found herself a female flying teacher and started learning to fly. Then she decided to buy a second-hand plane and had to save and borrow enough money to do it. She decided to call it "Canary", as it was bright yellow. In 1922, Amelia broke the women's altitude record, taking her own "Canary" up to a height of 14,000 feet. In 1932, she was the first woman to fly across the Atlantic. Nobody but one other person, Charles Lindbergh, had ever done something like that before. And that's not all. She also wanted to be the first woman to fly around the world, so when she was turning 40, Amelia decided that she was ready for this final challenge. Surprisingly, while still flying, the plane, navigator and pilot simply disappeared in the sky due to bad weather. We don't know precisely what happened, but Amelia Earhart is still remembered as a brave pioneer for both aviation and for women.
