Restore the Future Donald H. Young, 2012 Politically and economically the future of the United States is at stake In *Restore the Future* author Donald H Young seeks to galvanize the American people to guarantee a traditional future for our children and grandchildren through participation in a nonviolent Second American Revolution This Revolution of the people is as justified as the first one and it would be accomplished by using the extraordinary voting power granted to them by the Constitution to restore constitutional government Without this Revolution it can truly be said that the best days of the United States are behind it In this treatise he reviews historical forms of government and shows how the founding documents created the pinnacle of the development of government to date follows the outline of the Declaration of Independence in describing the many grievances we have with our government today based on its extraordinary departures from the founding documents which justify the Revolution discusses religion its importance to the Founders the elemental morality it provides and the importance of morality to the necessary function of society discusses the nature of liberty how it is different from freedom and why maximizing liberty is one of the primary responsibilities of government outlines the derivation of and the importance of the rule of law to the functioning of a society highlights the tragic failure of American education by global standards communicates the rationale for and critical importance of free enterprise and free trade and why free enterprise is the greatest engine for economic growth and personal development in the history of the world provides a roadmap for the accomplishment of the Revolution

Declaring Independence in Cyberspace Milton L. Mueller, 2005-05-13 How and why the US government gave up its control of ICANN the global coordinator of internet names numbers and protocols and what the geopolitical consequences were In 1997 the United States decided that the Internet should be governed not by governments but by something called the global Internet community In *Declaring Independence in Cyberspace* Milton Mueller tells the story of why it took 20 years of organizational and geopolitical struggle to make that happen ICANN Internet Corporation for Assigned Names and Numbers created in 1998 was the US government s answer to the question of who would control the Internet registries a key part of the Internet infrastructure supporting domain names network numbers IP addresses and other protocol parameters Originally ICANN was a bold institutional innovation based on a vision of Internet governance that was thoroughly globalized and independent of nation states *Declaring Independence in Cyberspace* explains where this vision came from the problems posed by its implementation and the organization s near self destruction in its first five years The US government refused to let go of ICANN for 15 years triggering geopolitical conflicts

over sovereignty and US power Mueller details why what prompted its change of heart and how the problem of making ICANN accountable to its community in the absence of US government control sparked a political battle in Washington His account gets to the very heart of a pressing question with profound global implications Is state sovereignty the immutable foundation of global governance or do new technological capabilities change the model
