American Bluegrass Guide Guide Kentucky Series State:

American Guides Wendy Griswold, 2016-08-26 In the midst of the Great Depression Americans were nearly universally literate and they were hungry for the written word With an eye to this market and as a response to unemployment Roosevelt's Works Progress Administration created the Federal Writers Project They produced the Project's American Guides an impressively produced series that set out not only to direct travelers on which routes to take and what to see throughout the country but also to celebrate the distinctive characteristics of each individual state The series unintentionally diversified American literary culture's cast of characters promoting women minority and rural writers while it also institutionalized the innovative idea that American culture comes in state shaped boxes *Guide to America; a Treasury of Information about Its States, Cities, Parks, and Historical Points of Interest*, 1947 **Catalogue, WPA Writers' Program Publications** Writers' Program (U.S.), United States. Work Projects Administration, 1942 **The American Coal Miner** United States. President's Commission on Coal, 1980 At the conclusion of the 110 day coal miners strike in March of 1978 President Carter appointed John D Jay Rockefeller IV to head up the first major federal study of coal mining in America in three decades One of the main tasks of the President's Commission on Coal PCC was in the words of Ben Franklin who covers coal for the New York Times to search out the roots of labor management bitterness that not only prolonged the record walkout but for decades has resulted in strikes every three years To President Carter who expressed a desire to place greater emphasis on domestically produced coal as an energy source and to business interests there were questions of great importance review essay by Alan Banks *Appalachian Journal* SUMMER 1982 Vol 9 No 4 SUMMER 1982 pp 295 301 **Monographic Series** Library of Congress, 1974 **Ante Bellum Houses of the Bluegrass** Clay Lancaster, 2014-07-15 The ante bellum homes of Lexington and Fayette County Kentucky are both more numerous and more distinctive in design than those of many communities of similar age Founded in 1775 Lexington by the turn of the century had become the chief cultural center north of New Orleans and west of the Alleghenies During the eight decades between the Revolution and the Civil War Fayette County was the focus of converging streams of immigration and a phenomenal amount of building activity took place in Lexington and the surrounding area Although local builders followed the trends of national architecture they were not primarily concerned with correctness and developed a provincial style which was distinguished by originality and a high level of craftsmanship In *Ante Bellum Houses of the Bluegrass* Clay Lancaster seeks to define the indigenous character of Fayette County building which he concludes is of unusually distinguished quality A second aim is the presentation of authentic data as a guide for intelligent restoration of existing old buildings many of which have been defaced by unnecessary changes and inappropriate additions He traces the development of house building in this restricted area from the first crude log cabins through frame stone and early brick residences to the substantial homes built by wealthy landowners and merchants in the mid nineteenth century The text is supplemented by 200 line drawings which present the essential features of each building free from the later

alterations and decay which would be recorded by the camera These illustrations have been compiled on the basis of intensive research from old photographs maps drawings and other records An album of halftone illustrations many of which are reproductions of old photographs of buildings which have been altered or demolished supplements these illustrations
