Shiffman,1999-01-01 This book provides an invaluable source of information for physicians and forensic scientists who are involved as expert witnesses in civil and criminal litigation Manipulative and opportunistic lawyers can lead an unsuspecting scientific expert into a potentially dangerous situation that could result in personal embarrassment professional organizational disciplinary action or even formal legal charges Areas of ethical behavior are identified for the forensic witness concerning their relationships with attorneys other experts and litigants Specific topics include 1 selection regulation and duties of the forensic expert 2 litigation and legal matters unethical conduct fees advertising and publicity 3 oral testimony the expert client relationship confidentiality contractual arrangements scientific and demonstrative evidence 4 practical issues for attorney preparation and the qualities and attitudes of medical experts In addition forensic aspects of alcoholism and drug abuse plus the use and abuse of forensic sciences are discussed with an entire chapter devoted to the O J Simpson case Finally the book thoroughly emphasizes the importance of the Ethical Medicolegal Report and the Code of Professional and Ethical Conduct The Remington Registry of Outstanding Professionals 2011-2012 J Alex Ficarra,2012-09-11 Undoubtedly growing up during the Vietnam War water gate and gas shortages can have a profound effect on a child Also being the son of immigrant parents most certainly can lead to a traumatizing clash of cultures and the understanding of right and wrong With that being said the Remington Company gave me the honor of a lifetime by letting me express my thoughts in unison with telling the brilliant stories of professionals around the world As I wrote endlessly 24 hours a day I realized that our world is full of hope and real promise I realized that it wasn't about war ideology and the pursuit of global domination I realized that in the pages of this great book great things were about to happen if only these stories can be made public I realized that I had the opportunity of a lifetime by expressing

the Humanitarian attributes that these professionals continually made After many years of writing I realized that the Remington Company had a distinct and noble purpose and perhaps we could not change the present but we could certainly try to change our future With that we created our Mentorship Program which gets these prolific stories out to the children We wrote the stories with zest but never crossed the line of respect or dignity We wished to capture the hearts of our audience and prove to them that giving was not an option but more so our duty as life forms on our planet Today our book has a theme Inspiring the youth of America This theme was our way of telling the world Lets hold hands and prepare our children for a better life today I continue to write for the Registry My life has irrevocably changed for the better I volunteer for any thing all the time I enjoy moments of quiet and the appreciation of our environment I read these biographies in amazement as everyone else does and it never seems to get uneventful Either way I sincerely hope you enjoy these biographies and use them to strengthen your spirit and confidence about our existence as a species on this planet I patiently wait for divine intervention in order to write my next biography and am happy to serve the brilliant members of the Remington Registry of Outstanding Professionals
