Congress. House. Veterans' Affairs Committee, 1957 **Calming America** Dennis S. O'Leary MD, 2022-09-16 Pot Luck Spokesman The information void in the hours following the shooting of US President Ronald Reagan late Monday afternoon March 30 1981 spawned many false rumors and misinformation which White House political adviser Lyn Nofziger understood threatened the credibility of the White House He therefore took the podium before the 200 plus assembled press in Ross Hall to tell them that he would be bringing with him a credible physician to brief them once the president was out of surgery However he didn't have many options to draw from for that credible physician At the hospital the surgeons tending the three shooting victims had first hand information about the afternoon's events but each surgeon knew only about his own injured patient White House physician Dan Ruge meanwhile had been at the president's side throughout the afternoon and was a possible candidate but his White House association made his credibility suspect according to White House aides The job became the drafting of the most logical person to be spokesman That would have been the seasoned physician CEO of the George Washington University Medical Center Ron Kaufman but he was out of town Next up was Dennis O'Leary the physician dean for clinical affairs as the preferred spokesman To the White House O'Leary was a total unknown but a review of his credentials would hardly have been reassuring He had originally been recruited to George Washington University as a blood specialist Reticent by nature he had minimal public relations and public speaking experience save two years as a member of his hometown high school debate team He had no surgical or trauma training or experience But beggars can't be choosers as the saying goes Kindly stated O'Leary was probably the least bad choice to serve as White House hospital spokesman to inform the world of the status of the wounded President Reagan special agent Tim McCarthy and press secretary Jim Brady Yet with a little bit of luck it might all work out And it did *Operations of Veterans' Administration Hospital and Medical Program* . . Wagner, 2007-12-23 Each year at the annual meeting of the Society of Nuclear Medicine Henry Wagner summarizes his view of principal advances in the field In *A Personal History of Nuclear Medicine* he brings the same insight to the fifty years he has practiced preached and breathed nuclear medicine That same fifty years spans the era in which radioactivity has been harnessed to provide exquisite maps of

physiologic function in the living human body Thus the book brings the perspective of an insider whose own contributions have been particularly in uential leader of a premier program in education and research founding member of the American Board of Nuclear Medicine proponent of int national cooperation and the World Congress and much more Because of Henry s positions and desire to meet and know colleagues throughout the world he and his wife Anne are most gracious hosts and visitors this autobiography is also a story of the major gures who grew the eld of nuclear medicine and made the discipline into a coherent one The book also re ects Henry s personality his candor and un inching way of telling it the way he thinks it is his punctuated use of aphorisms some of his own making his deep understanding of who he is and an innocent delight in many accomplishments Some years ago I suggested that Henry was a constructive troublemaker someone who goaded us out of accepted wisdom into new and sometimes outrageous thinking *Activities of the American Board of Internal Medicine, 1967-1975* Palmer Howard Fitcher,1988 *Register of the Commissioned and Warrant Officers of the United States Navy and Marine Corps* ,1950
