U.S. Army War College Guide to Strategy Joseph R. Cerami, James F. Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at the top of an officer s or government official s career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big Balancing what is described in the chapters as ends ways and means remains at the core of the Army War College s approach to national security and military strategy and strategy formulation
