Immigration and Naturalization Service, 1945 The life of a democracy is dependent in a major sense upon the education of its people The public schools of America have been entrusted with the development of a program of education to safeguard and improve our democracy Boys and girls living in America growing up in the American home the American school and the environment of an American community accept rather naturally even though imperfectly the responsibility of citizenship The foreign born have not had the opportunity to grow up under similar environmental conditions It follows therefore that instruction in citizenship is highly desirable and essential for many who come to our country and who want to become an integral part of its society This pamphlet Civic Education for the Foreign Born was prepared at the request of the president of the American Association of School Administrators in order to bring before the members of that association and others the important educational job yet to be done That job is primarily the responsibility of public education Naturalization is a vital function The nationality laws place upon the Immigration and Naturalization Service responsibilities that make it highly desirable for its officials to work very closely with the public school leaders in the educational work This pamphlet is one evidence of this cooperative relationship Arkansas History for Young People (Teacher's Edition) Shay E. Third Series Library of Congress. Copyright Office,1976 **Teaching Trump** Fritz Fischer,2025-08-25 This book makes the case for teaching and engaging with the Trump presidency as US political history Asking questions about how and when Trump s presidency should be studied posits that history teachers must engage with this history now The author points to the events that the January 6th Commission called a stain on our history and makes the argument that these events if ignored could stain the idea of history itself shrouding it in a mythical haze and relegating history teachers to merely marginalized storytellers As such it offers ideas on engaging students with the facts and sources of the Trump presidency and placing Trump in the larger context of American political history It specifically centers the notion of historical thinking as a guiding principle for the teaching of history and the study of the Trump presidency in particular This book bridges the gap between the controversial events and rhetoric of Donald Trump s first administration and the importance of contextualizing his presidency in the history classroom It will appeal to educators scholars and researchers with interests in history education and teaching those interested in civic education and social studies as well as anyone interested in the future of teaching history and civics *Keep Tab on the Lab* ,1960 *Research in Education* ,1971 *Bibliographic Guide to Education* ,1984 *A Republic, If We Can Teach It* Jeffrey Sikkenga,David Davenport,2024-05-14 America faces a crisis in civic education that imperils the long term health of our country Too many Americans especially young people do not have the knowledge of our history and principles necessary to sustain our republic Recent national test results reveal the sad state of civic education in our schools The 2022 report of the National Assessment of Educational Progress showed that only 22 percent of eighth graders tested were proficient or better in their knowledge of civics and proficiency in US history dropped to an anemic 13 percent The Annenberg Policy Center reported in 2019 that only 39 percent of Americans could name the three branches of government while its 2017 study showed that 37 percent could not name a single right in the First Amendment How can we keep a republic as Benjamin Franklin put it if we don t know what a republic is At a deeper level the crisis is not simply about facts and information If the next generations of Americans do not come to understand that our history and principles are good and that they merit their affection our experiment in self government could fail Action is needed now to reverse the trend **Teaching about the United Nations in the United States** United States. Office of Education,1964 *Books Related to Compensatory Education* ,1969 **The Publishers' Trade List Annual** ,1977 *For the Civic Good* Walter Feinberg,Richard A. Layton,2014-01-28 A case for teaching classes on world religion and the Bible in public schools **Teaching for Dissent** Sarah Marie Stitzlein,2015-11-17 Teaching for Dissent looks at the implications of

new forms of dissent for educational practice The reappearance of dissent in political meetings and street protests opens new possibilities for improved democratic life and citizen participation This book argues that this possibility will not be fulfilled if schools do not cultivate the skills necessary for our citizens to engage in political dissent The authors look at how practices in schools such as the testing regime and the hidden curriculum suppress students ability to voice ideas that stand in opposition to the status quo Teaching for Dissent calls for a realignment of the curriculum and the practices of schooling with a guiding vision of democratic participation
