

REASONS FOR AMERICAN IMPERIALISM

Introduction: Expansion has always been a part of America's history. At first, expansion headed towards the Pacific within North America. *In the 1700's and 1800's*, European nations began practicing **imperialism**, which is one people ruling over or controlling others. Initially, Americans did not look to take over other countries. Having been colonists themselves, many Americans were against it. America also feared that foreign involvement would bring the country into a war. However, attitudes began to change in the *late 1800's* as America began to look to the Pacific. Use the chart below to answer the questions.
