Monopolizing the Master Michael Anesko, 2012-01-11 Henry James defied posterity to disturb his bones; he was adamant that his legacy be based exclusively on his publications and that his private life and writings remain forever private. Despite this, almost immediately after his death in 1916, an intense struggle began among his family and his literary disciples to control his posthumous reputation, a struggle that was continued by later generations of critics and biographers. *Monopolizing the Master* gives a blow-by-blow account of this conflict, which aroused intense feelings of jealousy, suspicion and proprietorship among those who claimed to be the just custodians of James's literary legacy. With an unprecedented amount of new evidence now available, Michael Anesko reveals the remarkable social, political and sexual intrigue that inspired and influenced the deliberate construction of the Legend of the Master.
