All Souls A Family Story From Southie:

All Souls Michael Patrick MacDonald, 2010-07-28 A breakaway bestseller since its first printing All Souls takes us deep into Michael Patrick MacDonald's Southie the proudly insular neighborhood with the highest concentration of white poverty in America Rocked by Whitey Bulger's crime schemes and busing riots MacDonald's Southie is populated by sharply hewn characters like his Ma a miniskirted accordion playing single mother who endures the deaths of four of her eleven children Nearly suffocated by his grief and his community's code of silence MacDonald tells his family story here with gritty but moving honesty The Columbia Documentary History of Race and Ethnicity in America Ronald H. Bayor, 2004 With more than 240 primary sources this introduction to a complex topic is a resource for student research

Children in Prison Jerome Gold, 2019-07-02 Almost 330 000 children in America are in prison in a detention center on probation or parole or otherwise under the control of the criminal justice system In a time of nascent prison reform these children are often left out of the conversation This book chronicles the experiences of six young people in Ash Meadow in Washington State Written from the perspective of a prison rehabilitation counselor this book provides a firsthand account of these children's lives during and after their stay These accounts show how domestic violence inequality and poor adult modeling influence the decisions that children make later in life

At the Altar of the Bottom Line Tom Juravich, 2009 Based on extensive interviews with workers in four different industries this book takes us behind the statistics of the economic collapse and into the lives of Americans who are struggling to make ends meet and support their families Tom Juravich combines oral history with social and economic analysis to provide a vivid account of the multiple challenges presented in today's workplaces At a Verizon call center in Andover Massachusetts customer service reps find themselves overwhelmed by the pace of work and the constant monitoring They describe a daily routine marked by regimentation intense pressure to sell and unrelenting stress In New Bedford undocumented Guatemalans in the fish processing industry are fired if they don't work fast enough cheated out of wages and mistreated by supervisors Juravich describes a brutal immigration raid by U S Immigration and Customs Enforcement that divided families and forced workers further underground Juravich then takes us inside the operating rooms at the Boston Medical Center where hospital consolidation has brought a new bottom line philosophy that has fundamentally altered the way patient care is delivered Surgery takes place almost non stop driving some nurses from their chosen profession and leaving those who remain exhausted The final case study looks at the shuttering of the Jones Beloit plant an internationally known manufacturer of machinery for the paper industry Despite the best efforts of highly skilled and productive workers to save their plant it was

abruptly closed and they were abandoned after their CEO recklessly became involved in a shaky foreign investment Juravich argues that workers face a series of paradoxes in the contemporary American workplace They can no longer assume that large established firms create good jobs The new working conditions often resemble what was traditionally associated with marginal and low wage employers He concludes that we must bring a discussion about the quality of jobs back into the public discourse and that a good jobs strategy is a fundamental building block to economic recovery Workers voices are front and center in this highly readable book It includes striking photographs by Paul Shoul and a CD that presents a series of audio documentaries with excerpts from the interviews as well as four original songs written and performed by Juravich

The Persistence of Poverty in the United States Garth L. Mangum, Stephen L. Mangum, Andrew M. Sum, 2003 For more than thirty years students scholars and policymakers have relied on successive editions of Sar A Levitan's Programs in Aid of the Poor Now in conjunction with the eighth edition of that classic work coauthors Garth Mangum Stephen Mangum and Andrew Sum offer a brief but comprehensive overview of the facts of poverty in the United States its underlying causes and the reasons for its persistence in the richest nation in the world Providing a wealth of data and cogent analysis this book can be used along with Programs for additional background or can stand on its own This volume demonstrates more starkly than its parent the persistence of poverty in this nation Though some individuals and families manage to escape it the phenomenon diminishes not at all or at least very little Having been sobered by this thought the student may ponder what more might conceivably be done to reduce the incidence of that endemic economic and social disease from the Preface

The Columbia Guide to Irish American History Timothy J. Meagher, 2005-09-14 Once seen as threats to mainstream society Irish Americans have become an integral part of the American story More than 40 million Americans claim Irish descent and the culture and traditions of Ireland and Irish Americans have left an indelible mark on U.S. society Timothy J

The Battle for

Boston Don Gillis,2025-05-06 How Mayor Ray Flynn s leadership and a coalition of activists transformed Boston challenging established powers and setting new precedents for urban governance The Battle for Boston captures the remarkable era under Mayor Ray Flynn whose election in 1983 marked the beginning of a profound shift in the city s political and social landscape Don Gillis a Flynn senior advisor chronicles the inspiring journey of a city that dared to challenge the entrenched

power brokers including developers landlords and banking industry leaders through powerful grassroots campaigns Gillis provides a vivid portrayal of the political dynamics and the coalition of community organizers neighborhood leaders and residents that played a pivotal role in rejecting the business backed growth machine and the city's historically divisive racial politics This book charts the strategic battles fought within the corridors of power and on the streets and highlights the substantial impact these movements had on the city's governance and power dynamics In a historic turn in 2021 Michelle Wu became the first woman person of color and Asian American elected Mayor of Boston Wu's victory on a similarly progressive platform as Flynn underscores the enduring relevance of his legacy signaling a hopeful future for more inclusive and effectively governed cities The Battle for Boston poses a critical inquiry Can cities truly embrace progressivism and govern effectively in the twenty first century This qualitative narrative study is a testament to the possibility of such governance driven by the indomitable spirit of those who strive for a fair and equitable society

Joe Moakley's Journey Mark Robert Schneider, 2013 In November 1989 in El Salvador six Jesuit priests and their two female housekeepers were rousted from their beds and shot as they lay face down on the ground At first the George H W Bush administration echoed the Salvadoran military's line that the rebels must have done it When House Speaker Tom Foley tasked a senior congressman with investigating the murders the people of El Salvador found an unlikely champion in the person of John Joseph Moakley representative from South Boston In Joe Moakley's Journey Mark Robert Schneider charts one of the most unusual transformations in American politics A native son of South Boston Moakley was an effective and influential House member whose greatest influence and legacy is paradoxically far from home in the fields of El Salvador and Central America Though firmly fiercely grounded in his hometown of South Boston he never lived anywhere else from the beginning of this investigation until his death in 2001 issues of Central American justice peace and economic development became Joe Moakley's cause

A People's Guide to Greater Boston Joseph Nevins, Suren Moodliar, Eleni Macrakis, 2020 Herein we bring you to sites that have been central to the lives of the people of Greater Boston over four centuries You'll visit sites associated with the area's indigenous inhabitants and with the individuals and movements who sought to abolish slavery to end war challenge militarism and bring about a more peaceful world to achieve racial equity gender justice and sexual liberation and to secure the rights of workers We take you to some well known sites but more often to ones far off the well beaten path of the Freedom Trail to places in Boston's outlying neighborhoods We also visit sites in numerous other municipalities that make up the Greater Boston region from places such as Lawrence Lowell and Lynn to Concord and Plymouth The sites to which we do travel include homes given that people's struggles activism and organizing sometimes unfold or are even birthed in many cases in living rooms and kitchens Trying to capture a place as diverse and dynamic as Boston is highly challenging One could say that about any big place We thus want to make clear that our goal is not to be comprehensive or to do justice to the region Given the constraints of space and time as well as the limitations of knowledge

both our own and what is available in published form there are many important sites cities and towns that we have not included Thus in exploring scores of sites across Boston and numerous municipalities our modest goal is to paint a suggestive portrait of the greater urban area that highlights its long contested nature In many ways we merely scratch the region's surface or many surfaces given the multiple layers that any one place embodies In writing about Greater Boston as a place we run the risk of suggesting that the city writ large has some sort of essence Indeed the very notion of a particular place assumes intrinsic characteristics and an associated delimited space After all how can one distinguish one place from another if it has no uniqueness and is not geographically differentiated Nonetheless geographer Doreen Massey insists that we conceive of places as progressive as flowing over the boundaries of any particular space time or society in other words we should see places as processual or ever changing as unbounded in that they shape and are shaped by other places and forces from without and as having multiple identities In exploring Greater Boston from many venues over 400 years we embrace this approach That said we have to reconcile this with the need to delimit Greater Boston for among other reasons simply to be in a position to name it and thus distinguish it from elsewhere

Getting Ahead Silvia Dominguez, 2013-12 Honorable Mention 2014 Distinguished Contribution to Research Award presented by the Latina o Sociology Section of the American Sociological Association Getting Ahead tells the compelling stories of Latin American immigrant women living in public housing in two Boston area neighborhoods Silvia Dominguez argues that these immigrant women parlay social ties that provide support and leverage to develop networks and achieve social positioning to get ahead Through a rich ethnographic account and in depth interviews the strong voices of these women demonstrate how they successfully negotiate the world and achieve social mobility through their own individual agency skillfully navigating both constraints and

opportunities Dom nguez makes it clear that many immigrant women are able to develop the social support needed for a rich social life and leverage ties that open options for them to develop their social and human capital However she also shows that factors such as neighborhood and domestic violence and the unavailability of social services leave many women without the ability to strategize towards social mobility Ultimately Dom nguez makes important local and international policy recommendations on issue ranging from public housing to world labor visas demonstrating how policy can help to improve the lives of these and other low income people *The Origins of Midrash: From Teaching to Text* Paul D. Mandel,2017-05-22

In *The Origins of Midrash From Teaching to Text* Paul Mandel presents a comprehensive study of the words darash and midrash from the Bible until the early rabbinic periods 3rd century CE In contrast to current understandings in which the words are identified with modes of analysis of the biblical text Mandel claims that they refer to instruction in law and not to an interpretation of text Mandel traces the use of these words as they are associated with the scribe sofer the doresh ha torah in the Dead Sea scrolls the exegetes of the laws in the writings of Josephus and the rabbinic sage akham showing the development of the uses of midrash as a form of instruction throughout these periods **Off the Beaten Page** Terri

The ethical dimension of autobiography is emerging as an important area of study Scholars now recognize that an autobiography must be read with an element of caution since it represents not so much the literal truth as the author s perception of people and events a perspective sometimes unflattering to those portrayed Focusing on the ethics of autobiography this volume analyzes the works of four writers who spent much of their youth in working class circumstances yet became highly educated intellectual professionals It examines the ways in which each author confronts his or her past and how the authors represent their working class family members Texts discussed are *Growing Up* by Russell Baker 1982 *Brothers and Keepers* by John Edgar Wideman 1984 *A Woman in Amber* by Agate Nesaule 1995 and *Clear Springs* by Bobbie Ann Mason 1999 Each work recounts the author s struggle with a particular societal element such as gender race class division or region While Baker s memoir provides an example of positive balanced characterizations of working class relatives the texts by Wideman Nesaule and Mason illustrate the ethical pitfalls in portraying less powerful family members in one s life story An overview of trends in

working class autobiography and a brief survey regarding the critical reception of each work are included **Shared**

Beginnings, Divergent Lives John H. LAUB, Robert J. Sampson, 2009-06-30 This book analyzes newly collected data on crime and social development up to age 70 for 500 men who were remanded to reform school in the 1940s Born in Boston in the late 1920s and early 1930s these men were the subjects of the classic study *Unraveling Juvenile Delinquency* by Sheldon and Eleanor Glueck 1950 Updating their lives at the close of the twentieth century and connecting their adult experiences to childhood this book is arguably the longest longitudinal study of age crime and the life course to date John Laub and Robert Sampson's long term data combined with in depth interviews defy the conventional wisdom that links individual traits such as poor verbal skills limited self control and difficult temperament to long term trajectories of offending The authors reject the idea of categorizing offenders to reveal etiologies of offending rather they connect variability in behavior to social context They find that men who desisted from crime were rooted in structural routines and had strong social ties to family and community By uniting life history narratives with rigorous data analysis the authors shed new light on long term trajectories of crime and current policies of crime control Table of Contents Acknowledgments 1 Diverging Pathways of Troubled Boys 2 Persistence or Desistance 3 Explaining the Life Course of Crime 4 Finding the Men 5 Long Term Trajectories of Crime 6 Why Some Offenders Stop 7 Why Some Offenders Persist 8 Zigzag Criminal Careers 9 Modeling Change in Crime 10 Rethinking Lives in and out of Crime Notes References Index The accounts of individuals are quite riveting and the book can be recommended strongly purely for the stories provided about diverse lives However the book is much much more than that in terms of the serious challenge that the authors findings and ideas present to some of the leading contemporary theories of both crime and development A highly original and scholarly contribution of the highest quality Sir Michael Rutter Institute of Psychiatry King's College London title Shared Beginnings Divergent Lives is an extraordinary work which shows the deep insights gained by studying the whole life course beginning in childhood and ending in later life With access to a rare data archive the authors provide compelling evidence on the remarkably varied adult lives of teenage delinquents who grew up in low income areas of Boston born 1925 1935 The story behind these varied life paths and their consequences inspires fresh thinking about crime over the life course through models of life trajectories and vivid narratives that reveal the complexity of lives Glen H Elder Jr University of North Carolina at Chapel Hill This book redraws the landscape of developmental criminology that Laub and Sampson already have done so much to define setting new standards and benchmarks along the way The authors both provide new evidence for earlier conclusions and challenge prevailing assumptions and assertions thereby reshaping the criminological research agenda for years to come John Hagan Northwestern University [The Constant Outsider, Memoirs of a South Boston Mechanic](#) Thomas M. Cirignano, 2009-02-27 The Constant Outsider chronicles the radical choices made by the author as part of an intense struggle to fit in and be accepted within the challenging and often violent environments of Dorchester South Boston and beyond This memoir is a true and exciting account of what it was

like for the son of an Italian immigrant to grow up live and work in the predominantly Irish sections of Boston Massachusetts during some of the most volatile and violent decades in their histories For those who were not exposed first hand to the extreme criminal activity and violence which was Southie during the Whitey Bulger years the events the author experienced and the people he encountered should prove riveting Having to co exist with killers drug dealers and other assorted criminals as well as the many fine and honest people that were part of the community sometimes caused the author to walk a fine line between participating in or rejecting the lawlessness that surrounded him

Love and Money Lisa Henderson, 2013-01-01

Love and Money argues that we can't understand contemporary queer cultures without looking through the lens of social class Resisting old divisions between culture and economy identity and privilege left and queer recognition and redistribution Love and Money offers supple approaches to capturing class experience and class form in and around queerness Contrary to familiar dismissals not every queer television or movie character is like Will Truman on Will and Grace rich white healthy professional detached from politics community and sex Through ethnographic encounters with readers and cultural producers and such texts as Boys Don't Cry Brokeback Mountain By Hook or By Crook and wedding announcements in the New York Times Love and Money sees both queerness and class across a range of idioms and practices in everyday life How it asks do readers of Dorothy Allison's novels use her work to find a queer class voice How do gender and race broker queer class fantasy How do independent filmmakers cross back and forth between industry and queer sectors changing both places as they go and challenging queer ideas about bad commerce and bad taste With an eye to the nuances and harms of class difference in queerness and a wish to use culture to forge queer and class affinities Love and Money returns class and its politics to the study of queer life
