Elementary and Intermediate Algebra Marvin L. Bittinger, David J. Ellenbogen, Barbara L. Johnson, 2004

Audiotapes Bittinger, 2002-08 As you have come to expect when you see the Bittinger name, Basic Mathematics Ninth Edition continues to offer you and your students a completely integrated text and package that will help your students to succeed not only in this course but other courses as well. In addition to an exceptional 4-color text that has been significantly revised with respect to design and a new art program, students can also experience learning through the Digital Video Tutor, MathXL, the Addison Wesley Math Tutor Center, and now MyMathLab. Basic Mathematics Ninth Edition continues to bring students the Bittinger hallmark five-step problem solving process, a clear and easy-to-read writing style, real data applications, a superior supplements package, and most of all, an accurate text.

Elementary Algebra with Early Systems of Equations Tom Carson, Ellyn Gillespie, 2005-02 Tom Carson engages students in the learning process by meeting them where they are and leading them to where they need to be through the determination of their individual learning style, the development of study skills, and the integration of learning strategies that help each student succeed. *Elementary Algebra with Early Systems of Equations* is a book for the student. The authors' goal is to help build students' confidence, their understanding, and appreciation of math and their basic skills by presenting an extremely user-friendly text that models a framework in which students can succeed. Unfortunately, students who place into developmental math courses often struggle with math anxiety due to bad experiences in past math courses. Developmental math students often have never developed nor

applied a study system in mathematics To address these needs the authors have framed three goals for Elementary Algebra 1 reduce math anxiety 2 teach for understanding and 3 foster critical thinking and enthusiasm The authors writing style is extremely student friendly They talk to students in their own language and walk them through the concepts explaining not only how to do the math but also why it works and where it comes from rather than using the monkey see monkey do approach that some books take Elementary Algebra with Early Systems of Equations as the title implies places the topic of Systems of Equations early in the text in Chapter 5 This organization is ideal for those instructors who prefer to teach systems of equations immediately following the chapter on graphing and the chapters prior to polynomials and factoring For those who prefer to teach the topic later Elementary Algebra by the same author team places Systems of Equations in Chapter 8 Foundations of Algebra Solving Linear Equations and Inequalities Problem Solving Graphing Linear Equations and Inequalities Systems of Equations Polynomials Factoring Rational Expressions and Equations Roots and Radicals Quadratic Equations For all readers interested in elementary algebra
