All In The Education Of General David Petraeus:

All In Paula Broadwell, Vernon Loeb, 2012-01-24 General David Petraeus is the most transformative leader the American military has seen since the generation of Marshall In the New York Times bestseller *All In* military expert Paula Broadwell examines Petraeus's career his intellectual development as a military officer and his impact on the U S military Afforded extensive access by General Petraeus his mentors his subordinates and his longtime friends Broadwell reported on the front lines of fighting and at the strategic command in Afghanistan to chronicle the experiences of this American general as they were brought to bear in the terrible crucible of war *All In* draws on hundreds of hours of exclusive interviews with Petraeus and his top officers and soldiers to tell the inside story of this commander's development and leadership in war When Petraeus assumed command in Afghanistan in July 2010 the conflict looked as bleak as at any moment in America's nine years on the ground there Petraeus's defining idea counterinsurgency was immediate put to its most difficult test the hard lessons learned during the surge in Iraq were to be applied in a radically different theater *All In* examines the impact in Afghanistan of new counterinsurgency as well as counterterrorism strategies through the commands of several Petraeus protégés Broadwell examines his evolution as a soldier from his education at West Point in the wake of Vietnam to his earlier service in Central America Haiti Kuwait Bosnia and Iraq *All In* also documents the general's role in the war in Washington going behind the scenes of negotiations during policy reviews of the war in Afghanistan in Congress the Pentagon and the White House Broadwell ultimately appraises Petraeus's impact on the entire U S military Thanks to this man's influence the military is better prepared to fight using a comprehensive blend of civil military activities As America surveys a decade of untraditional warfare this much is clear The career of General David Petraeus profoundly shaped our military and left an indelible mark on its rising leaders **Professional Journal of the United States Army**, 2012 [L'Affaire Petraeus](#)

Wayne Madsen, 2013-05-23 This is the first overview of the scandal that took down CIA director and the much idolized General David Petraeus As with all major scandals there are back stories to the Petraeus Affair and they are revealed here *Military Review*, 2016 *The Theory and Practice of Irregular Warfare* Andrew Mumford, Bruno C Reis, 2013-11-26 This book offers an analysis of key individuals who have contributed to both the theory and the practice of counterinsurgency COIN Insurgencies have become the dominant form of armed conflict around the world today The perceptible degeneration of the occupations of Iraq and Afghanistan into insurgent quagmires has sparked a renewal of academic and military interest in the theory and practice of counterinsurgency In light of this this book provides a rigorous analysis of those individuals who have contributed to both the theory and practice of counterinsurgency warrior scholars These are soldiers who have bridged the academic military divide by influencing doctrinal and intellectual debates about irregular warfare Irregular warfare is notoriously difficult for the military and scholarly understanding about this type of warfare is also problematic especially given the residual anti intellectualism within Western militaries Thus *The Theory and Practice of Irregular Warfare* is

dedicated to analysing the best perceivable bridge between these two worlds The authors explore the theoretical and practical contributions made by a selection of warrior scholars of different nationalities from periods ranging from the French colonial wars of the mid twentieth century to the Israeli experiences in the Middle East from contributions to American counter insurgency made during the Iraq War to the thinkers who shaped the US war in Vietnam This book will be of much interest to students of counterinsurgency strategic studies defence studies war studies and security studies in general

Global NATO and the Catastrophic Failure in Libya Horace Campbell,2013-03-01 In this incisive account scholar Horace Campbell investigates the political and economic crises of the early twenty first century through the prism of NATO s intervention in Libya He traces the origins of the conflict situates it in the broader context of the Arab Spring uprisings and explains the expanded role of a post Cold War NATO This military organization he argues is the instrument through which the capitalist class of North America and Europe seeks to impose its political will on the rest of the world however warped by the increasingly outmoded neoliberal form of capitalism The intervention in Libya characterized by bombing campaigns military information operations third party countries and private contractors exemplifies this new model Campbell points out that while political elites in the West were quick to celebrate the intervention in Libya as a success the NATO campaign caused many civilian deaths and destroyed the nation s infrastructure Furthermore the instability it unleashed in the forms of militias and terrorist groups have only begun to be reckoned with as the United States learned when its embassy was attacked and personnel including the ambassador were killed Campbell s lucid study is essential reading for anyone seeking to understand this complex and weighty course of events

Narcissism and Politics Jerrold M. Post,2015 This book analyzes narcissism and politics and systematically explores the psychology of narcissism the entitlement the grandiosity and arrogance overlying insecurity the sensitivity to criticism and the hunger for acclaim illustrating different narcissistic personality features through a spectrum of international and national politicians

Why We Lost Daniel P. Bolger,2014-11-11 A commander s compelling behind the scenes view of the United States at war after 9 11 from high level strategy to combat on the ground The Wall Street Journal Over his thirty five year career Daniel P Bolger rose through the ranks of the army infantry to become a three star general commanding in both Afghanistan and Iraq Perhaps more than anyone else he was witness to the full extent of these wars from September 11th to withdrawal from the region Not only did Bolger participate in top level planning and strategy meetings he also regularly carried a rifle alongside soldiers in combat actions Writing with hard won experience and unflinching honesty Bolger argues that while we lost in Iraq and Afghanistan we did not have to Intelligence was garbled Key decision makers were blinded by spreadsheets or theories And we never really understood our enemy Why We Lost is a timely forceful and compulsively readable account from a fresh and authoritative perspective filled with heartfelt stories of soldiers and Marines in firefights and close combat It weighs in mightily to the ongoing debate over how the United States should wage war The Washington Post
