Warner, Mathew Forstater, Sumner Rosen, Robert Heilbroner, 2015-05-20 The 15 papers collected in this book encompass important macroeconomic theories and policies espoused by 1996 Nobel laureate economist William S Vickrey and his associates

Vickrey wrote a number of papers in the last few years of his life elucidating his commitment to full employment as a prerequisite for a decent standard of living for all Drawing on the foundation of Vickrey s work the contributors expand and elaborate on issues relative to full employment theory and policy and on related macro policy issues Complexity

Economics Olivér Kovács, 2022-07-15 Our socio economic innovation ecosystem is riddled with ever increasing complexity as

we are faced with more frequent and intense shocks such as COVID 19 Unfortunately addressing complexity requires a different kind of economic governance There is increasing pressure on economics to not only going beyond its traditional mainstream boundaries but also to tackle real world problems such as fostering structural change enhancing sustained growth promoting inclusive development in the era of the digital economy and boosting green growth while addressing the divide between the financial sector and the real economy This book demonstrates how to apply complexity science to economics in an effective and instructive way in the interest of life enhancing policies The book revolves around the non negligible problem of why economics to date seems to be inadequate in guiding economic governance to navigate through real and ever intensifying complex socio economic and environmental challenges With its interdisciplinary approach the book scans the nuanced nexus between complexity and economics by incorporating as well as transcending the state of the art literature It identifies ways to trigger opportunities for behavioural change in the economic profession with respect to how and what to teach introducing and developing further complexity economics taking into account the configuration of its main principles and outlining the silhouette of next generation economic governance The book deciphers recommendations for economic theory practice education and economic governance It will be of interest to students scholars academics think tank researchers and economic policy practitioners at the national and or supranational levels
