But she is troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she is taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

Suspended For Life C. Twiggy Billue, 2014-07-16 SUSPENDED FOR LIFE takes an empirical look via real experiences at how Zero Tolerance Policies contained in the schools Code of Conduct disregards the rights of the student especially students with disabilities These policies are failing students everywhere including my residence of Syracuse New York Statistically these unfair and biased Zero Tolerance Policies have led to very high suspension rates affecting mainly inner city students but overwhelmingly target students with IEPs 504 Accommodations the untested but suspected LD student and the intellectually gifted student Healthcare Mental Health and Medical Privacy HIPPA now play large roles in school especially in decisions to suspend a student however coupled with a school districts Code of Conduct they have become a crucial aspect for suspension Once you understand the link between a referral to In School Suspension ISS warehousing students or a referral for Out of School Suspension OSS push out of students you will realize that in most cases suspension can lead directly to the prison industrial complex for our young women and men Stopping this from happening to your student may depend on how well you are prepared to advocate for your child We must not allow

suspension to push out our children because ostensibly it may be ensuring them a life sentence of unemployment crime or even death We say it starts at home with the parents so if we can better understand our student s rights and the rights we have as parents we can better prepare ourselves to advocate for our student and to hold the school district accountable for the Education of Our Children

Making Plans Frederick R. Steiner, 2018-05-04 Community and regional planning involve thinking ahead and formally envisioning the future for ourselves and others according to Frederick R Steiner Improved plans can lead to healthier safer and more beautiful places to live for us and other species We can also plan for places that are more just and more profitable Plans can help us not only to sustain what we value but also to transcend sustainability by creating truly regenerative communities that is places with the capacity to restore renew and revitalize their own sources of energy and materials In Making Plans Steiner offers a primer on the planning process through a lively firsthand account of developing plans for the city of Austin and the University of Texas campus As dean of the UT School of Architecture Steiner served on planning committees that addressed the future growth of the city and the university growth that inevitably overlapped because of UT s central location in Austin As he walks readers through the planning processes Steiner illustrates how large scale planning requires setting goals and objectives reading landscapes determining best uses designing options selecting courses for moving forward taking actions and adjusting to changes He also demonstrates that planning is an inherently political sometimes messy act requiring the intelligence and ownership of the affected communities Both wise and frank Making Plans is an important philosophical and practical statement on planning by a leader in the field
