tired of daily stress bad planning and poorly thought through changes and implementations customer complaints but no improvements this book is for you too A Brain Smart Revolution in Business starts with one person You *Psychological Components of Sustainable Peace* Peter T. Coleman, Morton Deutsch, 2012-06-15 Scholarship on the psychology of peace has been accumulating for decades The approach employed has been predominantly centered on addressing and preventing conflict and violence and less on the conditions associated with promoting peace Concerns around nuclear annihilation enemy images discrimination denial of basic human needs terrorism and torture have been the focal points of most research The *Psychological Components of a Sustainable Peace* moves beyond a prevention orientation to the study of the conditions for increasing the probabilities for sustainable cooperative peace Such a view combines preventative scholarship with a promotive orientation to the study of peaceful situations and societies The contributors to this volume examine the components of various psychological theories that contribute to the promotion of a harmonious sustainable peace Underlying this orientation is the belief that promoting the ideas and actions which can lead to a sustainable harmonious peace will not only contribute to the prevention of war but will also lead to more positive constructive relations among people and nations and to a more sustainable planet The *Psychological Components of a Sustainable Peace* is valuable and stimulating reading for researchers in peace psychology political psychology and conflict resolution as well as others who are interested in developing a sustainable harmonious world **Virtual Training** Jeb Blount, 2021-06-22 Remote learning has been around since the 18th century Caleb Phillips began advertising correspondence courses in the Boston Gazette in 1728 allowing people for the first time to learn new skills no matter where they lived For the past 300 years virtual training in its various formats has been meandering into shore on an inevitable yet slow building tide And then just like that everything changed A global pandemic Social distancing Working from home In an instant the tide became a tsunami The global pandemic accelerated the broad adoption of virtual instructor led training along with awareness that classroom based training is often expensive inefficient and fails to deliver a fair return on investment While it is certainly more challenging to re create the collaborative environment of the physical classroom in a virtual setting virtual training combines the structure accountability and social learning benefits of classroom training with speed agility and significant cost savings Simply put virtual training enables organizations to rapidly upskill more people while generating a far higher return on the training investment Virtual training is also green Studies indicate that virtual training consumes nearly 90% less energy and produces 85% fewer CO2 emissions than classroom training Still the biggest challenge with virtual training and the reason there has been so much resistance to it is historically the experience has been excruciating Not the quality of the curriculum or content Not the talent of the trainer The learning experience There are few people who haven't had the pleasure of sitting through agonizing virtual training sessions Death by voice over PowerPoint delivered by a disengaged instructor has an especially bitter flavor It is the way virtual training is delivered that matters most When the virtual learning experience is emotionally positive Participants

are more engaged embrace new competencies and knowledge sticks Participants are more likely to show up to class and be open to future virtual training Trainers enjoy their work and gain fulfillment from making an impact Leaders book more virtual training Organizations more readily blend and integrate virtual training into learning development initiatives This is exactly what this book is about Virtual Training is the definitive guide to delivering virtual training that engages learners and makes new skills and behavioral changes stick Jeb Blount one of the most celebrated trainers and authors of our generation walks you step by step through the seven elements of effective engaging virtual learning experiences Trainer Mindset Emotional Discipline Production Technology Media Visuals Virtual Curriculum Instructional Design Planning Preparation Virtual Communication Skills Dynamic Interactive Training Delivery As you dive into these powerful insights and with each new chapter you ll gain greater and greater confidence in your ability to effectively deliver training in a virtual classroom Once you master virtual training delivery and experience the power of remote learning you may never want to go back to the physical classroom again *Resonant Leadership* Richard Boyatzis, Annie McKee, 2005-09-14 The blockbuster best seller *Primal Leadership* introduced us to resonant leaders individuals who manage their own and others emotions in ways that drive success Leaders everywhere recognized the validity of resonant leadership but struggled with how to achieve and sustain resonance amid the relentless demands of work and life Now Richard Boyatzis and Annie McKee provide an indispensable guide to overcoming the vicious cycle of stress sacrifice and dissonance that afflicts many leaders Drawing from extensive multidisciplinary research and real life stories *Resonant Leadership* offers a field tested framework for creating the resonance that fuels great leadership Rather than constantly sacrificing themselves to workplace demands leaders can manage the cycle using specific techniques to combat stress avoid burnout and renew themselves physically mentally and emotionally The book reveals that the path to resonance is through mindfulness hope and compassion and shows how intentionally employing these qualities creates effective and enduring leadership Great leaders are resonant leaders *Resonant Leadership* offers the inspiration and tools to spark and sustain resonance in ourselves and in those we lead
