Multi-source, Multilingual Information Extraction and Summarization Thierry Poibeau, Horacio Saggion, Jakub Piskorski, Roman Yangarber, 2012-08-14 Information extraction IE and text summarization TS are powerful technologies for finding relevant pieces of information in text and presenting them to the user in condensed form The ongoing information explosion makes IE and TS critical for successful functioning within the information society These technologies face particular challenges due to the inherent multi source nature of the information explosion The technologies must now handle not isolated texts or individual narratives but rather large scale repositories and streams in general in multiple languages containing a multiplicity of perspectives opinions or commentaries on particular topics entities or events There is thus a need to adapt existing techniques and develop new ones to deal with these challenges This volume contains a selection of papers that present a variety of methodologies for content identification and extraction as well as for content fusion and regeneration The chapters cover various aspects of the challenges depending on the nature of the information sought names vs events and the nature of the sources news streams vs image captions vs scientific research papers etc This volume aims to offer a broad and representative sample of studies from this very active research field

The Spectator, 1879 *American Book Publishing Record*, 1968 *Minimal Answers* Ana Lúcia Santos, 2009 This book offers a new contribution to the debate concerning the acquisition of the syntax discourse interface It provides evidence that children

acquiring European Portuguese have a very early ability to spontaneously produce VP ellipsis as answers to yes no questions It is also argued that the distribution of VP ellipsis in European Portuguese including its co existence with Null Complement Anaphora supports the hypothesis that the identification condition on ellipsis is derivable from some innate knowledge of the syntax discourse interface Answers to yes no questions also provide evidence concerning children s interpretation of questions containing a cleft or the operator s only The analysis of spontaneous production is complemented by a comprehension experiment showing that children have two problems in the interpretation of these questions i they do not understand that the cleft and s introduce a presupposition and ii they start with a default focus assignment strategy and may not access other focus interpretations
