The Bogleheads' Guide to Investing Mel Lindauer, Taylor Larimore, Michael LeBoeuf, 2014-08-18 The irreverent guide to investing Boglehead style The Bogleheads' Guide to Investing is a DIY handbook that espouses the sage investment wisdom of John C Bogle This witty and wonderful book offers contrarian advice that provides the first step on the road to investment success illustrating how relying on typical common sense promoted by Wall Street is destined to leave you poorer This updated edition includes new information on backdoor Roth IRAs and ETFs as mainstream buy and hold investments estate taxes and gifting plus changes to the laws regarding Traditional and Roth IRAs and 401k and 403b retirement plans With warnings and principles both precisely accurate and grandly counterintuitive the Boglehead authors show how beating the market is a zero sum game Investing can be simple but it's certainly not simplistic Over the course of twenty years the followers of John C Bogle have evolved from a loose association of investors to a major force with the largest and most active non commercial financial forum on the Internet The Bogleheads' Guide to Investing brings that communication to you with comprehensive guidance to the investment prowess on display at Bogleheads.org You'll learn how to craft your own investment strategy using the Bogle proven methods that have worked for thousands of investors and how to Choose a sound financial lifestyle and diversify your portfolio Start early invest regularly and know what you're buying Preserve your buying power keeping costs and taxes low Throw out the good advice promoted by Wall Street that leads to investment failure Financial markets are essentially closed systems in which one's gain garners another's loss Investors looking for a roadmap to successfully navigating these choppy waters long term will find expert guidance sound advice and a little irreverent humor in The Bogleheads' Guide to Investing
