vast a horde had long ago filled over a dozen burrows Bands of the Male Society occupied the outermost four of these
interconnected corridors and patrolled it with their full strength twenty three young adult males in the prime of courage and
alertness They were stationed there to take the first shock of any danger to Mankind they and their band captains and the
youthful initiates who served them Eric the Only was an initiate in this powerful force Today he was a student warrior a
fetcher and a carrier for proven seasoned men But tomorrow tomorrow This was his birthday Tomorrow he would be sent
forth to Steal for Mankind When he returned and have no fear Eric was swift Eric was clever he would return off might go
the loose loin cloths of boyhood to be replaced by the tight loin straps of a proud Male Society warrior He would be free to

The First World War is a watershed in the intellectual and spiritual history of the modern world On the one hand it brought
an end to a sense of optimism and decency bred by the prosperity of nineteenth century Europe On the other it brought forth
a sense of futility and alienation that has since pervaded European thought That cataclysmic experience is richly reflected in

the work of writers and artists from both sides of the conflict and this study provides a detailed analysis of two basic themes death and degradation that mark the literature about the war From their accounts most men entered the war lightheartedly filled with ideals of patriotism and glory but these generous feelings were soon quelled as the war settled into a stalemate its operations reduced to simply grinding away the opposing forces In these operations Alfredo Bonadeo shows men became mere aggregations thrown against one another wasted with no appreciable effects or gains save carnage itself This cheapening and disregard for human life and being Bonadeo finds rooted not only in the conditions of war but significantly in a contempt for the common man prevailing in European political and intellectual circles This attitude is revealed most plainly in his analysis of the Italian literature which hitherto has received little note Italian leaders saw the war as an opportunity to expiate a sense of national guilt and here the inconclusive campaigns made their futility all the greater Out of the torn fields of the First World War grew the seeds of a second greater conflict but Professor Bonadeo concludes the flowering of the seeds was aided by the degradation of man s spirit on those fields The grim focus of this book the dead voices it evokes leads to a new appreciation of the meaning of the Great War
