

Gender learning in Alice Munro's short story entitled "Boys and Girls"

Ratna Asmarani*

Faculty of Humanities, Diponegoro University, Indonesia

The issues around gender is inexhaustible since gender can be analyzed from many perspectives. The focus of this paper is to discuss the gender learning experienced by the young girl in a short story entitled "Boys and Girls" written by Alice Munro. The discussion includes the young girl's gender defiance, gender learning, and gender acceptance. To support the discussion several issues around gender are reviewed. Besides a comprehensive definition of gender, issues concerning doing gender, gender identity, gender order, gender segregation, gender learning, gender presentation, gender display, and others are reviewed. The analysis is also combined with the conversation analysis by considering the influence of the language that leads to gender learning of the female character in the short story. The methods used are a combination of library research method with its close reading, qualitative method, and contextual method. The result shows that gender learning is inevitable especially in an isolated place. Although the young girl tries to defy the gender learning she finally has to accept it. This situation correlates with Simone de Beauvoir's statement "ONE is not born, but rather becomes, a woman" (De Beauvoir, 1956: 273) in her phenomenal book *The Second Sex*. Thus, the short story implies that being a girl in a strict male context is not easy, she has to surrender to the gender roles that are constructed for her, and the chances to actualize herself is limited or even non-existent.

INTRODUCTION

"Boys and Girls" is a short story by Alice Munro, a Canadian female writer (born 1931). This short story "was first published in 1968 in *The Montrealer*, before it was collected with fourteen other stories and published in Alice Munro's first edition of short stories, *Dance of the Happy Shades* (1968)" (Thacker, 2013). "Boys and Girls" is narrated by a young girl and it talks about her experience of becoming a woman. Her surrounding taught her through many ways to become an acceptable woman by avoiding certain attitudes and following certain advices. Although at first she tried to resist the normative rules that she considered as limitations, she finally succumbed to the never-ending gender socialization.

The analysis on gender especially on the gender learning experienced by the young girl in Alice Munro's "Boys and Girl" needs a review on several concepts concerning gender and its socialization. Lorber and Farel (1991) remind us that "In reality, girls and boys, women and men are more alike than they are different" or as Holmes (2009) says "women and men are not different species". They want to make us aware that basically girls and boys are the same because they belong to the same species. However the similarity quickly evaporates because of the application of "sameness taboo" (Rubin, 1975 in Lorber, Judith and Farel (1991)).

Alice Munro and Ismat Chughtai Shagufta Naj, 2024-03-18 This book is an analytical investigation into the works of renowned story writers Ismat Chughtai and Alice Munro. Both of the writers are known for their feminist perspectives and portrayal of the complexities of women's lives. The book aims to examine the gender issues depicted in their works and offers a fresh perspective on these themes. By studying the synchronic current and diachronic historical debates about gender and its realities, the book seeks to provide a deeper understanding of the complex nature of gender, moving beyond simplistic or generic interpretations and aims to bring these discussions out of the realm of generic discourse. The agenda of the book is to make upcoming scholars aware to advocate for a more inclusive approach to addressing gender issues in academic work and thought processes. The book aims to highlight the importance of not solely focusing on women's issues as this can lead to a biased or sexist perspective. Instead, it promotes acknowledging, communicating, empathizing with, and granting representation to issues faced by men and people of other genders as well in order to create a more inclusive and balanced discourse on gender-related topics. **Alice Munro and the Anatomy of the Short Story** Oriana Palusci, 2018-01-23

Alice Munro has devoted her entire career to the short story form in her fourteen collections, having won the Nobel Prize in Literature as master of the contemporary short story. This edited volume investigates her art as a storyteller, the processes she performs on the contemporary short story genre in her creative anatomical theatre. Divided into five topical sections, it is a collection of scholarly chapters which offer textual insights into a single story, compare two or more texts, or cast a more panoramic view on Munro's literary production, embracing stories from her first collection *Dance of the Happy Shades* to her last published *Dear Life*. Through different critical approaches that range from post-structuralism to cultural studies, from linguistics and rhetorical analyses to translation studies, the authors insist on the concept that no fixed patterns prevail in her short stories as Munro has constantly developed, challenged, and revised existing modes of generic configuration while discussing the fluidity, the elusiveness, the indeterminacy, the ambiguity of her superb writing. **Female gender roles in**
