**Translanguaging and Epistemological Decentring in Higher Education and Research** Heidi Bojsen, Petra Daryai-Hansen, Anne Holmen, Karen Risager, 2023-01-13 Using data from multilingual settings in universities and adjacent learning contexts in East Asia North Africa Central and North America and Europe this book provides examples of the heuristic value of translanguaging and epistemological decentring Despite this and other theoretical and empirical work and ever stronger calls for the inclusion of other languages epistemologies and constructions of culture in higher education decentring and translanguaging practices are often relegated to the margins or suppressed in research and education because of the organisational structures of education institutions and prevailing language norms policies and ideologies The authors draw on research on pluri and multilingualism within education studies as well as post and decolonial theoretical contributions to the research on the role of language in education and knowledge production to provide evidence that decentring cannot happen until learners have been given the tools to identify which sorts of centring dynamics and conditions are salient to their learning and trans languaging *Democratic Evaluation and*

*Democracy* Donna Podems, 2017-02-01 Democratic evaluation brings a way of thinking about evaluation s role in society and in particular its role in strengthening social justice Yet the reality of applying it and what happens when it is applied particularly outside the West is unclear Set in South Africa a newly formed democracy in Southern Africa the book affords an in depth journey that immerses a reader into the realities of evaluation and its relation to democracy The book starts with the broader introductory chapters that set the scene for more detailed ones which bring thorough insights into national government local government and civil societies experience of evaluation democratic evaluation and their understanding of how it contributes to strengthening democracy or not A teaching case the book concludes by providing guiding questions that encourage reflection discussion and learning that ultimately aims to inform practice and theory CALL and complexity -

short papers from EUROCALL 2019 Fanny Meunier, Julie Van de Vyver, Linda Bradley, Sylvie Thouësny, 2019-12-09 The theme selected for the 2019 EuroCALL conference held in Louvain la Neuve was CALL and complexity As languages are known to be intrinsically and linguistically complex as are the many determinants of learning additional languages complexity is viewed as a challenge to be embraced collectively The 2019 conference allowed us to pay tribute to providers of CALL solutions and to recognize the complexity of their task We hope you will enjoy reading this volume as it offers a rich glimpse into the numerous debates that took place during EuroCALL 2019 We look forward to continuing those debates and discussions with you at the next EuroCALL conferences **The Texture of the Lexicon** Ray Jackendoff, Jenny Audring, 2020

advances in computational modelling and learning This in depth exploration provides new perspectives on where phonology has been and sheds light on where it could go next *Emergent phonology* Diana Archangeli ,Douglas Pulleyblank ,2022 To what extent do complex phonological patterns require the postulation of universal mechanisms specific to language In this volume we explore the Emergent Hypothesis that the innate language specific faculty driving the shape of adult grammars is minimal with grammar development relying instead on cognitive capacities of a general nature Generalisations about sounds and about the way sounds are organised into meaningful units are constructed in a bottom up fashion As such phonology is emergent We present arguments for considering the Emergent Hypothesis both conceptually and by working through an extended example in order to demonstrate how an adult grammar might emerge from the input encountered by a learner Developing a concrete data driven approach we argue that the conventional abstract notion of unique underlying representations is unmotivated such underlying representations would require some innate principle to ensure their postulation by a learner We review the history of the concept and show that such postulated forms result in undesirable phonological consequences We work through several case studies to illustrate how various types of phonological patterns might be accounted for in the proposed framework The case studies illustrate patterns of allophony of productive and unproductive patterns of alternation and cases where the surface manifestation of a feature does not seem to correspond to its morphological source We consider cases where a phonetic distinction that is binary seems to manifest itself in a way that is morphologically ternary and we consider cases where underlying representations of considerable abstractness have been posited in previous frameworks We also consider cases of opacity where observed phonological properties do not neatly map onto the phonological generalisations governing patterns of alternation *Literature Reviews* Ana Paula Cardoso Ermel,D. P. Lacerda,Maria Isabel W. M. Morandi,Leandro Gauss,2021-08-30 This book begins by introducing the topic of knowledge in literature including its scientific foundations Due to the ever increasing number of scientific publications literature reviews are becoming more and more essential to stay updated Literature Reviews describes an innovative system for creating systematic literature reviews through reviewing analyzing and synthesizing scientific and technological literature It then discusses systematic literature reviews content analysis and literature synthesis separately before presenting the methodology to combine them in one process It showcases computational tools to aid in this technique and offers examples of the method in action Finally the book takes a new of future developments in the subject This book is of interest to graduate students as well as researchers and academics helping them to deepen insights and improve skills needed to conduct thorough literature reviews **A Catalogue of Thirty Thousand Volumes ... of Several Libraries ...
