Leibman,2010-07-22 With a breadwinner dad a homemaker mom and squeaky clean kids the 1950s television family has achieved near mythological status as a model of what real families ought to be Yet feature films of the period often portrayed families in trouble with parents and children in conflict over appropriate values and behaviors Why were these representations of family apparently so far apart Nina Leibman analyzes many feature films and dozens of TV situation comedy episodes from 1954 to 1963 to find surprising commonalities in their representations of the family Redefining the comedy as a family melodrama she compares film and television depictions of familial power gender roles and economic attitudes Leibman s explorations reveal how themes of guilt deceit manipulation anxiety and disfunctionality that obviously characterize such movies as Rebel without a Cause A Summer Place and Splendor in the Grass also crop up in such TV shows as The Adventures of Ozzie and Harriet Father Knows Best Leave It to Beaver The Donna Reed Show and My Three Sons Drawing on interviews with many of the participants of these productions archival documents and trade journals Leibman sets her discussion within a larger institutional history of 1950s film and television Her discussions shed new light not only on the reasons for both media s near obsession with family life but also on changes in American society as it reconfigured itself in the postwar era **Focus On: 100 Most Popular Television Series by Warner Bros. Television** Wikipedia contributors, **Guide to the Performing Arts** Sara Yancey Belknap,1961 *Diagnosis Female*

Emily Dwass, 2019-10-15 Why do so many women have trouble getting effective and compassionate medical treatment? *Diagnosis Female* examines this widespread problem with a focus on misdiagnosis and gender bias. The book zeroes in on specialties where women are more likely to encounter particularly troubling roadblocks: cardiology, neurology, chronic diseases, and obstetrics/gynecology. All too often when doctors can't figure out what is going on, women receive a diagnosis from the all-in-head column; this pattern is even worse for women of color who may face significant challenges in medical settings. Throughout the work, Emily Dwass profiles women whose stories illustrate how medical practitioners often dismiss their claims or disregard their symptoms. Because women were excluded from important medical research for centuries, doctors don't always recognize that male symptoms and female symptoms can vary from issue to issue. Even today, most diagnostic tests and treatment plans are based on studies done on men. Throughout the book, women state that their voices do not matter or, worse, their concerns are greeted with skepticism or simply ignored when they seek help. The results can be devastating and long-lasting. Examining the bias inherent in the system, Dwass offers measures women can take to protect their health and receive better care. She offers advice too for the medical community in addressing the problem so that outcomes can improve all around. If you're a woman and you seek medical care, this book is a must-read. Your health depends upon it.

Medical Visions Kirsten Ostherr, 2013-04-11 This book explores 120 years of medical image making to explain how visual representations came to play a central role in medical education and practice. She demonstrates how medical images acquire cultural meaning and influence shaping professional and popular understandings of health and disease.

Who the Hell Are We Fighting? C. Michael Hiam, 2019-07-16 A tightly written narrative history. Harvard magazine. It was an enigma of the Vietnam War: American troops kept killing the Viet Cong and were being killed in the process, and yet the Viet Cong's ranks continued to grow. When one man, CIA analyst Sam Adams, uncovered documents suggesting a Viet Cong army more than twice as numerous as previously reckoned, another war erupted this time within the ranks of America's intelligence community. This clandestine conflict, which burst into public view during the acrimonious lawsuit *Westmoreland v CBS*, involved the highest levels of the U.S. government. The central issue in the trial, as in the war itself, was the calamitous failure of our intelligence agencies to ascertain the strength of the Viet Cong and get that information to our troops in a timely fashion. The legacy of this failure, whether due to institutional inertia, misguided politics, or individual hubris, haunts our nation. And Sam Adams' tireless crusade for honest intelligence resonates strongly today. To detractors like Richard Helms, Adams was an obsessive zealot; to others, he was a patriot of rare integrity and moral courage. Adams was the driving force behind the CBS ninety-minute documentary *The Uncounted Enemy*, produced by George Crile and hosted by Mike Wallace. *Westmoreland* brought a lawsuit seeking 120 million in damages against Adams and Wallace in what headlines around the country trumpeted as the libel trial of the century. *Westmoreland* dropped his suit before the case could be sent to the jury. *Who the Hell Are We Fighting?* is the first serious narrative history of Adams' controversial discovery of the Vietnam numbers.
