

Human Body

SCAVENGER HUNT

The image displays a central human figure with a red heart, surrounded by several informational cards about human body systems. The cards are arranged in a collage-like fashion, overlapping each other. The cards include:

- Digestive system:** breaks down nutrients in the stomach and intestines, then absorbed into the body.
- Urinary system:** including the kidneys and bladder, removes waste from the blood and regulates water and electrolyte balance.
- Reproductive system:** enables reproduction. Involving organs such as ovaries in females and testes in males.
- Nervous system:** includes the brain, spinal cord, and nerves. It controls voluntary and involuntary actions.
- Circulatory system:** transports blood throughout the body.
- Respiratory system:** takes in oxygen and removes carbon dioxide.
- Muscular system:** provides movement and support.
- Skeletal system:** provides structure and support.

Each card also features a "CODE WORD" section with a question related to the system. For example, the Digestive system card asks: "CODE WORD: What system is responsible for reproduction?" and the Urinary system card asks: "CODE WORD: What system provides body structure and organ protection?"

The Quest logo is visible in the bottom right corner.
