literally hundreds of websites books magazines and television shows designed to tell you everything you need to know about the subject Almost everything that is Anyone who has ever tried to find a definitive way to rank players for their fantasy draft or worse find dollar values for auction style leagues knows the difficulty of finding a system that works for their leagues Because leagues vary according to size rules and scoring systems a player who may be a valuable commodity in one league may be below average in another Therefore the one size fits all rankings or valuations that you see most places can be useless And even if those rankings were designed specifically for leagues like yours values and rankings are normally assigned in a subjective manner without any mathematical evidence to support the author s case The Winner s Guide to Drafting a Fantasy Football Team has a timeless solution to the problem of finding customized and accurate rankings and dollar values that work for any fantasy league Author Chris Lee explains what constitutes value and how that value can be translated to rankings and dollar values for any league in a common sense way that removes the guesswork that s at the foundation of most ranking and dollar valuation systems Simply put if you know what kind of statistics a player is going to produce in the coming year you ll know where to draft him or how much to pay for him at your draft This proven system has helped Chris win many leagues By following the steps in this book you can build a spreadsheet that will help you win yours as well

2020 Fantasy Football Almanac and Draft Guide Sean Ryan, 2020-05-09 Have you noticed most 2020 Fantasy Football Magazines and Fantasy Football Books tend to recycle the same information the same sleepers and the same tiers This is because they re all using the same information last year s stats Last year s stats won t tell you how Mike McCarthy will utilize Ezekiel Elliot They won t tell you if Mark Rhule is going to keep feeding Christian McCaffrey the ball But The 2020 Fantasy Football Almanac and Draft Guide does A few years ago I was like everyone else I scoured the Internet and Fantasy Football publications searching for any advantage I could find I found myself reading 10 15 different books that all wound up telling me the same thing Making things worse they were telling all of my competition as well That s when sleeper picks become overhyped and over drafted To avoid draft day misses I knew I had to dig into the data I knew I had to watch film and after a while I cam to one undeniable truth Fantasy Football success comes from knowing the offensive schemes and how a player s talents will be used in an offense This is why as my Fantasy Football Book predicted Lamar Jackson flourished in last year under Greg Roman s coaching and Le Veon Bell disappointed in Adam Gase s offensive scheme In fact 7 of our 8 Too Risky picks were busts last season Think about this If all my Fantasy Football Almanac and Draft Guide did was tell you about one sleeper who is so far forgotten you could draft him and start him in the last round would it be worth it My readers who picked up Darren Waller and Devin Singletary in the late rounds last year think so Or if all this Fantasy Football Almanac and Draft Guide did was keep you from using your draft day picks on season long busts This is more than a fantasy football magazine It s a fantasy football scouting agency We blend next gen sports analytics with good old fashion film study I literally watch every single preseason game in order to properly calibrate this guide s rankings throughout the offseason That s right
