Rethinking Civil Society Regionalism in Africa Dele Kogbe, 2022-10-14. This book interrogates the extent to which regional civil society organisations have evolved as actors in West Africa. Examining civil society democratic participation in regional integration and involvement in regionalism of peacebuilding, it rethinks how we study civil society in the Economic Community of West African States (ECOWAS) region. Beyond the functional typology of civil society actors as partner, legitimiser, resistance counter, hegemonic and manipulator, the book develops a new analytical framework to understand how organisations such as the West African Civil Society Forum (WACSOF) and West African Network for Peacebuilding (WANEP) have evolved. Offering analytical perspectives of the actorship of specific regional civil society actors, the book draws attention to the tendencies in the previous studies of mistaking an action or misdeed that is empirically specific to particular civil society organisations within a region to the generality of the civic space of the region. Providing an alternative perspective aimed at invoking a new intellectual conversation about civil society regionalism, this book advances a new analytical framework of action-based regional identity of civil society, regional presence of activities, regional capacities, and societal impact. It will be of interest to academics and scholars of international relations, global governance, African politics, and comparative regionalism. **Africa South of the Sahara 2003** Europa Publications, 2002-10-31. Chapters cover the historical background and theoretical rationale for NDBs, the contemporary role of NDBs, including their role in sustainable development, climate finance, initiatives, and infrastructure development, funding sources, business models, monitoring and impact evaluation, and corporate governance, risk management, and regulation.
