Many service procedures can be performed without entering the system, transmitted from the home. Clearly, however, the role of the nursing staff is critical for the successful intervention.

If the technician's objective is to service/replace left side cover of axle (3), front output joint of axle (1), rear output joint of axle (2), adjust the oil level from beneath the engine transmission, the engine/transmission does not have to be removed from the frame.

Make sure the ATX is properly supported on the support stand to avoid injury.
