Conein, 2014-06-02 This volume presents the proceedings of the 11th International Conference on the Design of Cooperative
Systems COOP 2014 The conference is a venue for multidisciplinary research contributing to the design assessment and
analysis of cooperative systems and their integration in organizations public venues and everyday life COOP emerged from
the European tradition of Computer Supported Cooperative Work CSCW and Cognitive Ergonomics as practiced in France
These proceedings are a collection of 28 papers reflecting the variety of research activities in the field as well as an
increasing interest in investigating the use and design of ICT in all aspects of everyday life and society and not merely in the
workplace The papers represent a variety of research topics from healthcare to sustainable mobility to disaster response in
settings from all over the world For the first time the proceedings include papers presented in an Early Career Researchers
Track which was organized in order to give young researchers the opportunity to discuss their work with an international
community This collection of papers provides a picture of new developments and classic topics of research around
cooperative systems based on the principle that a deep knowledge of cooperative practices is a key to understanding
technology impacts and producing quality designs The articles presented will appeal to researchers and practitioners alike as
they combine an understanding of the nature of work with the possibilities offered by novel digital technologies
