Project 1: Accessed the [REDACTED] to the Patient Summary via the Electronic Health Record (EHR) and verified that the data is correct, valid, and editable within the necessary and predefined parameters. The data included the Patient Information, PCP Information, HMO, Prescriptions, and Preexisting Conditions, along with other hyperlinks that lead to more detailed information and records. This made everyday tasks easier for licensed professionals and allowed them to quickly get answers needed for all patient care needs and in order to make informed decisions on their behalf.

Project 2: Enhanced the [REDACTED] in the [REDACTED] and added Patients' full medical information into one module. Included data such as Policy and Coverage Information, Plan Requirements and Benefits, Access to ID cards, etc. This helped a licensed professional efficiently find all relevant information about a patient's insurance plan and their coverage.

Project 3: Optimized the [REDACTED] in Billing to help process claims between a Prescriber, Pharmacist, and [REDACTED] more efficiently by asking for the correct data and information. This processed [REDACTED] claims in a way that helped to cut costs and reduced monetary spending for the medical necessity coverage requests received by restructuring the information needed on the insurance claims pages.
