**Distance Learning, E-Learning and Blended Learning in Mathematics Education** Jason Silverman, Veronica Hoyos, 2018-07-20 This book builds on current and emerging research in distance learning, e-learning and blended learning. Specifically, it tests the boundaries of what is known by examining and discussing recent research and development in teaching and learning based on these modalities with a focus on lifelong mathematics learning and teaching. The book is organized in four sections. The first section focuses on the incorporation of new technologies into mathematics classrooms through the construction or use of digital teaching and learning platforms. The second section presents a wide range of perspectives on the study and implementation of different tutoring systems and/or computer-assisted math instruction. The third section presents four new innovations in mathematics learning and/or mathematics teacher education that involve the development of novel interfaces for communicating mathematical ideas and analyzing student thinking and student work. Finally, the fourth section presents the latest work on the construction and implementation of new MOOCs and rich media platforms developed to carry out specialized mathematics teacher education.

**Teaching Secondary Mathematics** David Rock, Douglas K. Brumbaugh, 2013-02-15 Solidly grounded in up-to-date research, theory and technology, *Teaching Secondary Mathematics* is a practical, student-friendly and popular text for secondary mathematics methods courses. It provides clear and useful approaches for mathematics teachers and shows how concepts typically found in a secondary mathematics curriculum can be taught in a positive and encouraging way. The thoroughly revised fourth edition combines this pragmatic approach with truly innovative and integrated technology content throughout. Synthesized content between the book and comprehensive companion website offers expanded discussion of chapter topics, additional examples and technological tips. Each chapter features tried and tested pedagogical techniques, problem-solving challenges, discussion points, activities, mathematical challenges and student life-based applications that will encourage students to think and do. New to the 4th edition: A fully revised and updated chapter on technological advancements in the teaching of mathematics; Connections to both the updated NCTM Focal Points as well as the new Common Core State Standards are well integrated throughout the text; Problem-solving challenges and sticky questions featured in each chapter to encourage students to think through everyday issues and possible solutions; A fresh interior design to better highlight pedagogical elements and key features; A companion website with chapter-by-chapter video lessons, teacher tools, problem-solving Q&As, helpful links and resources, and embedded graphing calculators.
